Table of Contents.

The New Annual Bengal Directory is divided into Two Portions, THE DIRECTORY and THE APPENDIX ; each Portion consists of Six Parts, the titles of which are given in a preceding Page ; one set of numbers only is employed, which runs on uninterruptedly throughout the Work ; blanks being however left between each part, to admit of additions without deranging the numbers. THE REGULATIONS and all INFORMATION connected with the different portions of the Directory are collected together and immediately follow the List to which they belong : All the INDEXES TO NAMES are placed at the end of the Book, for more convenient reference and as each part has a running head, the Publishers hope the Public will find that the slightest chance of confusion has been guarded against. A perusal of the foregoing general directions and the following particular Table of Contents, will put the Reader in full possession of the order of arrangement of this publication.

Map of Hindoostan.

This MAP has been compiled from the best authorities at very considerable trouble and expence, expressly for this Work. It has been considerably improved and a New Map of the Birman Empire added to it, since the publication of the last Edition and the Publishers beg to assure the Public it may be fully relied on : it has been divided into Military Divisions, which have been colored more distinctly to mark out their respective limits and all the Civil and Military Stations and public roads are accurately laid down. The Publishers hope in another year to be able to present their Subscribers with a complete Map of Calcutta.

Almanac for the Year.

To which is added, The Planets and their Relations. Signs of the Zodiac, Chronological Cycles, Moveable Feasts, Ember Days, Ecliptic and Equinoctial Relations, Solar and Lunar Eclipses, Time of High Water, Terms in the Supreme Court, Hindoo and Mahomedan Days of the Week, Hindoo and Mahomedan Holidays ; Local Observations on each month in the year, &c. compiled expressly for this Work.

N. B. This part of the Directory will in future be published in a separate shape, at the latter end of the year. It will be given gratuitously to ANNUAL Subscribers.

Managers in England; HENRY STONE, and HENRY ALEXANDER.

Messrs. Paxton and Co. *Agents in England.*

The object of this fund is to provide for the maintenance of the widows and children of such of the subscribers as may not, at their demise, leave property sufficient for the subsistence and education of their families; also to assist in maintaining such of the subscribers themselves as may be compelled by sickness or infirmity to return to Europe, without an adequate provision for their support.

It is at the option of the civil servants of this establishment, either to subscribe thereto or otherwise.

The following are the rates of contribution:

If the salary or other public allowance of the subscriber be not more than	
If 1000 sa. rs. per mensem, his monthly subscription to be,.....	Sicca Rupees 10
If more than 1000 and not above 2000.....	20
If more than 2000 and not above 3000.....	30
If more than 3000 and not above 4000.....	40
If more than 4000.....	50

The contribution payable by each subscriber is deducted from his monthly allowances by the sub-treasurer, collector or other officer, paying the same, and transferred to the treasurer of the fund. The committee of managers may in particular cases, admit a deviation from it, if a different mode of payment shall be desired by any subscriber.

All applications for admission to the benefits of the fund are to be made to the committee of managers, and to be accompanied with the necessary information, documents, and proofs to enable the committee to ascertain the circumstances and situation of the party applying. The managers, after calling for any further information or evidence which may appear to them requisite are to submit the whole case for the determination of the subscribers, at the next general meeting. In cases of emergency and distress however, when the managers may consider the claim valid, they are authorized to advance such proportion of the fixed allowance as hereafter specified as may appear to them indispensably requisite, until a determination can be passed by the subscribers.

Any subscriber to the fund who may be compelled by sickness or in infirmity to proceed to Europe for the recovery of his health, and shall not be possessed of sufficient means to pay for his passage to Europe, and to support himself and family during his necessary absence from India, on his making a declaration upon oath to this effect, or otherwise establishing the fact, and producing a certificate of the necessity of his return to Europe, so duly attested by the surgeon who has attended him, and countersigned by a member of the medical board, with the consequent permission of government for his proceeding to Europe, will receive from the fund a donation, equivalent to the Company's allowance for a twelve-month to a servant, of his rank when out of employ, viz. if he be a senior merchant, 4000 sicca rupees, if a junior merchant 3000 sicca rupees, if a factor or writer 2000 sicca rupees. At the expiration of one year if the party be in Europe, a further donation shall be made to him, on his application to the agents for the fund in England, equal to that advanced to him upon his embarkation to India: at the exchange rate of two shillings and sixpence for the sicca rupee, viz. £500, £375, or £250, according to his rank in the service at the time of his leaving India. Should the Imperial re-

covery of his health render it necessary to protract his stay in Europe beyond the second year, and besides his own declaration upon oath to this effect, he shall produce to the agents for the funds in England, a certificate solemnly attested by a respectable physician, or other professional gentleman of established practice, that the state of his health has not admitted of his previous return to India, he will, at the commencement of the third year after his embarkation from India, receive from the Agents in England, a donation equal to a moiety of the amount paid to him in the preceding year, and another moiety on a similar declaration and certificate at the end of six months, viz. two years and a half after his embarkation from India, if he be still in Europe, which is to be considered to include all claims whatever upon the fund to the period of his return to India: passage money is granted, in cases appearing to require it in addition to the sums above specified, and in such cases the amount is to be determined by a general meeting of the subscribers.

On the death of any subscriber to the civil fund, who may not be possessed of property sufficient to provide for his family, and may, consequently, leave a wife, cohabiting with him or maintained by him and living under his protection to the period of his decease, without an adequate provision for her support, as hereafter specified; if, on the information documents and evidence, which may be submitted by her to the managers of the fund, it shall appear to the satisfaction of a general meeting of the subscribers that she is a proper object, a pension is to be assigned to her, under the provisions and limitations stated in the following article: Provided that nothing contained therein, or in any other part of the rules for this institution, shall be considered to entitle her to the benefit of any widow, who may have been legally divorced or separated from her husband for adultery; or who at the period of her husband's demise, may have quitted his protection, and be living in a state of notorious adultery, though not divorced or separated from him by law.

First. If the widow, at the time of her husband's death, be resident in India, and be left without an income exceeding one hundred rupees per mensem, a pension to be assigned to her of three hundred rupees per mensem, during her residence in India. If the widow be not resident in India at the time of her husband's death or shall afterwards quit India, and her income, from her husband's estate or otherwise, shall not exceed one hundred pounds per annum, the pension to be assigned to her to be three hundred pounds per annum.

Secondly. If the income of the widow, resident in India at the death of her husband, be more than one hundred sicca rupees per mensem, but exceed not four hundred rupees; or if the widow be not resident in India at the time of her husband's demise, or shall afterwards quit India, and her income be more than one hundred pounds per annum, but shall not exceed four hundred pounds per annum, the pension to be assigned to her is to be such as will make up her income to four hundred rupees per mensem, during her residence in India, or four hundred pounds per annum in Europe, or elsewhere.

Thirdly. In the event of a widow, to whom a pension may have been assigned acquiring subsequently by inheritance, bequest, or otherwise, any property or income which with the property left to her at her husband's decease, and the pension received by her, may render her total income, including her pension from the fund, more than five hundred rupees per mensem, during her residence in India, or more than five hundred pounds per annum in Europe or elsewhere, her pension from the fund is liable to abatement, proportioned to the excess of her entire income, including the pension, above the sum specified; or to be altogether discontinued, in the event of her property or income, exclusive of the pension assigned to her from the fund, being equal to the full sum of five hundred rupees per mensem in India, or five hundred pounds per annum in Europe, or elsewhere.

Fourthly. All pensions of widows are also liable to discontinuance on their remarriage. But in the event of their being again left in a state of widowhood, without an adequate provision for their support, they may be again admitted to the benefits of the fund, under the same provision and limitations as, on their original admission.

Fifthly. The pensions to widows, who may be admitted to the benefit of the fund, are to be paid in advance half yearly to themselves or to their authorized agents. But the acknowledgement of the widow herself shall be taken for all sums paid in her behalf; and shall contain solemn declaration that her entire income including the pension received by her does not exceed the sum limited above.

Widows are, if they have no means of paying for their passage to Europe, supplied from the fund with such sum as may appear requisite for that purpose.

If any subscriber to the fund shall die without the means of providing for his family, and shall consequently leave a child or children, born in wedlock, without

an adequate provision for their maintenance; and on the information, documents, or evidence which may be submitted in their behalf to the managers of the fund, it shall appear to the satisfaction of a general meeting of the subscribers that they are proper objects, an allowance for their maintenance and education shall be assigned from the fund, under the provisions and limitations contained in the following article:

First. If the child or children of the deceased subscriber be left without any provision, the allowance for the education and maintenance of each child, to be granted from the fund, in India or in Europe, is to be according to the age of the child, as follows, viz.

Till five years age, thirty rupees per mensem in India; or thirty pounds per annum in Europe.

From the commencement of the sixth year, to the end of the eighth, forty rupees per mensem in India; or sixty pounds per annum in Europe.

From the commencement of the ninth year, to the end of the eleventh, fifty rupees per mensem in India; or eighty pounds per annum in Europe.

From the commencement of the twelfth year, sixty rupees per mensem, in India; or one hundred pounds per annum in Europe.

Secondly. If any provision be left by a subscriber for his child or children; or if after his death they shall at any time become possessed of property or income by inheritance, bequest or otherwise; but not such as to afford the sums specified for their education and maintenance; the allowance to be granted from the fund or to be such as, in addition to the property or income possessed by them, will make up the several sums above specified according to their respective ages; and as they may be resident in India or in Europe.

Thirdly. In the event of the property or income left to the child or children, of a subscriber, at his demise, or which may subsequently devolve, or be in any wise acquired by them, being such as to afford the full amount specified for their education and maintenance, they are not considered entitled to any allowance from the fund; and any allowances which may have been granted before such accession of property or income are to be discontinued.

Fourthly. The allowances granted from the fund, for the maintenance and education of children, are to be paid in advance half yearly, to their guardians or relatives; or to such persons as may be entrusted with the disbursement of the sums allotted for them either by the managers of the fund in India or by the agents to the fund in England; who from time to time are to adopt such measures as may appear necessary for the purpose of ascertaining any accession of property, which would render the allowances from the fund liable to abatement or discontinuance.

Fifthly. The provision so made from the fund, for the maintenance and education of female children, ceases on their marriage, or on their being settled in any profession or employment; and the provision for male children ceases on their being settled in any profession or employment or on their attaining the age of twenty one years. But any requisite sum, not exceeding five hundred pounds, may be appropriated to the benefit of male or female children by the managers of the fund in India; or by the agents of the fund in England at the time of their marriage, or of their being settled in any profession.

For children who may be in India when admitted to the fund, and who may be sent to England for their education, with the concurrence of the managers, passage money, if requisite, is to be supplied from the fund, not exceeding one thousand Sicca Rupees for each child. An allowance for passage money, not exceeding one hundred pounds also to be granted if it appear necessary, for the return to India of any children admitted to the fund, who after completing their education in Europe, may return to India.

In all cases of application being made to the fund for assistance to the family of a deceased subscriber, an authenticated copy of the will of the deceased, or if he shall have died intestate, a full authentic statement of any property left by him, and of the legal heirs thereto must be submitted for the information of the managers and subscribers. A general meeting of subscribers has full power to reject the application for aid from the fund, where it may appear, that a subscriber, leaving property, has made an improper devise of it, with a view to throw his family upon the fund, or has purposely neglected to make a disposition of his property for the benefit of his family.

Those who may arrive in India, and subscribe to the fund, are considered subscribers from the time of their arrival at Fort William, or from the commencement of any allowances receivable by them as civil servants of the Bengal establishment. But no civil servant of this residency in India, who may not accept the invitation given to him by the preceding article, within six months after his arrival in India, shall be admitted to become a subscriber.

The contribution of every subscriber to the fund, ceases upon his leaving India, to return to Europe, but in the event of his returning to India, and again receiving allowance from the company, he is to renew his contribution from the commencement of such allowance.

If a subscriber to the fund, at the time of his retiring from the service to return to Europe shall have contributed, by his previous monthly payments to the fund the principal sum of five thousand sicca rupees; or if, on his quitting the service, he shall pay to the fund what may be wanting to complete his contribution to that amount; such contribution shall entitle the family of the subscriber, on his demise, to the benefits of the institution, under the several provisions herein stated, or such as may be hereafter established, in like manner as if his death had taken place during his residence and actual subscription to the fund in India. The family of any subscriber to the fund, who may die during his temporary absence from India for the recovery of his health, are also considered entitled to the benefits of the fund, under the existing rules of it, whether such subscriber may have contributed more or less than five thousand sicca rupees. In all other cases, if the deceased member of the institution shall not have been an actual subscriber to the fund at the time of his death, and shall not have contributed five thousand sicca rupees to the fund, it shall be at the option of the subscribers to admit his family to the benefits of the fund or otherwise.

If a subscriber to the fund shall be dismissed from the service, he shall cease to be entitled to the benefits of the institution, and his widow and children, shall in like manner, have no claim to the benefit of the institution.—But in each case the amount of his actual contribution to the fund, shall be returned with interest, at the rate of ten per cent. per annum.

If a subscriber shall be suspended from the service, he shall, during the period of his suspension, cease to be entitled in his own person to the benefits of the institution; but in the event of his restoration, he shall be restored to his former rights.

A subscriber suspended from the service, shall however, have the option of receiving back the amount of contributions, in the same manner as in the case of persons finally dismissed from the service, but if he should take advantage of this clause, he shall cease to be entitled to the benefits of the institution, either for himself or family, as in the case of persons finally dismissed from the service.

If a subscriber, being suspended from the service, shall die during the period of suspension, his widow and children shall be entitled to the full benefits of the institution, excepting in the case of his receiving back the amount of his contribution.

NOMINATION OF STUDENTS.

REGULATIONS AND PREPARATORY INSTRUCTIONS.

No Candidate for the College can be nominated thereto, until he has completed the sixteenth year of his age. And no person who has been dismissed from the Army or Navy, or expelled from any place of education, will be nominated to the College.

The parents or guardian of every candidate for the college will be required to address the following letter to the nominating Director:—

"SIR.—I beg to assure you, on my honour, that my ——— to whom you have been so good as to give a nomination to the college, has not been dismissed from the Army or Navy, and that he never has been expelled from any place of education.

"I have the honour, to be, &c."

By the Act of the 33d of Geo. III, no person can be appointed a writer in the company's service, whose age exceeds twenty two years; and by the Act of the 33d of Geo. III, all students for the college must remain there four terms—consequently, no person whose age exceeds twenty, can be nominated as a student. All these terms are probationary, but the first is to be considered as such in a particular sense; and if any student shall not, in the judgment of the college council, give satisfaction in that term, he will not be permitted to remain to the college.

Candidates for the college must produce the undermentioned documents, previously to their being nominated as students.

An extract from the parish register of their birth or baptism, properly signed by the minister, churchwarden, or elders; and, in addition thereto.

A certificate agreeably, to the following form, signed by the parent, guardian, or near relation.

"I do hereby certify, that the foregoing extract from the register of baptisms of the parish of _____, in the county of _____, contains the date of the birth of my son _____, who is the bearer of this, and presented for a nomination as a student at the East-India College by _____, Esq., and I do further declare, that I received the said presentation for my son _____ gratuitously, and that no money or other valuable consideration has been or is to be paid, either directly, or indirectly, for the same; and that I will not pay or cause to be paid, either myself, by my son, or by the hands of any other person, any pecuniary or valuable consideration whatsoever, to any person or persons who have interested themselves in procuring the said presentation for my son from the Director above-mentioned."

"I witness my hand, this _____ day of _____, in the year of our Lord _____."

In the event of no parish register existing or to be found an affidavit of such circumstance is to be made before a magistrate, to the following effect, viz.

"I, _____, presented as a student for the East India College by _____, do make oath and swear, that I have caused search to be made to a parish register, whereby to ascertain my age, but am unable to produce the same there being none to be found; and, (further, I make oath and swear, that from the information of my parents (and other relations), which information I verily believe to be true, that I was born in the parish of _____, in the county of _____, on _____, in the year _____, and that I am not at this time under the age of sixteen, or above twenty years."

"Sworn before me

"day of _____

"I witness my hand, this _____ day

"Lord _____"

The parent, guardian, or near relation, must then add his certificate as to the truth of the affidavit, which must be similar to that ordered to be annexed to the extract from the parish register.

The above mentioned certificate (and affidavits in cases where an affidavit shall be required) are to be annexed to the petition to be written by the candidate, and they to sign a declaration in thereon, that they have read these printed instructions. The same declaration is to be signed by the parent, guardian, or near relation of the candidate respectively.

Candidates are to produce certificates from the persons under whom they have received their education attesting the nature of that education, and the proficiency they have made therein; and are certifying as to their mental ability, disposition, and character.

Candidates will be interrogated in an open Committee of College as to their character, connexions, and qualifications, conformably to the General Court's resolution of the 6th July 1809.

On a student's appointment to be a Writer, a legal instrument is to be entered into by some one person (to be approved by the Court of Directors) binding himself to pay the sum of £1000, as liquidated damages to the Company, for breach of a covenant to be entered into that the student, no nomination hath not been in any way bought, or sold, or exchanged for any thing convertible into a pecuniary benefit.

DEDUCTION FROM SALARIES.

Government has established the following Rules, in respect to the deductions to be made from the Salaries of persons absent from their stations, whether on account of bad health, or on account of their private affairs, likewise on other points connected with such absence.

A deduction of one-sixth except in the cases below stated to be made from Salaries or authorized Emoluments of all Civil Servants compelled to leave their stations on account of sickness, during the whole period of their absence.

This Rule however is not to apply to Zillah or City Registrars or to other Individuals whose Allowances may not exceed 500 Rupees, per mensem. It is not intended to make any deduction from the Salaries of Civil Servants holding such appointments, when absent from their stations on account of bad health.

In cases in which the Salaries or authorized Emoluments of Civil Servants exceed the sum stated under the foregoing Head only in such a small degree, that a deduction at the rate of one-sixth would reduce the remaining proportion below 500 Rupees per mensem, it is the intention of Government, that the deduction should not be carried to the full extent of one-sixth, but merely so far as will leave to the Individual the monthly sum, above mentioned, of Sixty Rupees 500.

A deduction at the rate of one-sixth to be made from the Salaries or authorized emoluments of all Civil Servants, stationed within the divisions of Bareilly and Benares, or as they are ordinarily denominated the Western Provinces, who may with the sanction of Government, be absent from their stations on account of their private affairs, during any period not exceeding eight weeks in the year.

A deduction of one-sixth to be made from the Salaries or authorized Emoluments of all Civil Servants stationed in the Lower Provinces, who may with the sanction of Government, be absent from their stations, on account of their private affairs, during any period not exceeding six weeks in the year.

A deduction of one third to be made from the Salaries or authorized Emoluments of Civil Servants who may be absent from their stations, on account of their private affairs (and not on account of sickness,) for periods of time respectively, exceeding those specified under the two foregoing Heads, numbered according as the Rules contained under these Heads may apply to the cases.

DEPUTATION ALLOWANCE.

To Civil Servants out of employment, nominated to act in the temporary charge of Offices at the Presidency or elsewhere.

When average monthly Emoluments as follows.	Rate of Officiating Allowance per Mensem	Add. Substantance money, according to rank	Total.
Not exceeding sicca rupees 1,500	400	Writer, or Factor, 16 Junior Merchant, 24	562 or 644
More than sicca rupees 1,500 but not exceeding sicca rupees 2,500	700	Junior Merchant, 24 Senior Merchant, 52	944 or 1,025
Exceeding sicca rupees 2,500	1,500	Senior Merchant, 32	1,825

To Civil Servants when in Charge of Offices, distinct from those to which they are permanently appointed.

When the average monthly Emoluments are as follows	If the office be at the same station permanently	If at a different station, per mensem
Not exceeding, per mensem, sicca rs. 1,500	sicca rupees 150.	sicca rupees 300
More than sicca rs. 1,500 but not exceeding sicca rupees 2,500	sicca rupees 250.	sicca rupees 400
Exceeding sicca rupees 2,500	sicca rupees 350.	sicca rupees 500

The Extra Allowances specified in the foregoing Statements are intended to preclude all claims on the part of the individual officiating to commission, which is considered to belong to the fixed incumbent, even during his absence subject of course to the prescribed deduction.

The extra and Deputation Allowances above specified are to be considered applicable to Civil Servants in every branch to the Service, with the exception especially provided for below.

The GOVERNOR GENERAL IN COUNCIL will determine the amount of the Extra or Deputation Allowances to be granted to persons officiating as Secretaries to Government or as Residents at Foreign Courts, as circumstances may in each instance render advisable. The same course will likewise be pursued, when Offices may be constituted for the attainment of local or temporary object, similar to those at present held by the Commissioners in Behar.

When the Register of a Provincial Court, or the Assistant to a Magistrate, shall be nominated to the charge of the Office of Register of a Zillah or City Court, at the same station as that to which he is permanently attached he is entitled to receive the Fees authorized by the Regulation on all Suits actually decided by himself, as well as the Fees for registering Deeds, an arrangement which renders any further Extra Allowance unnecessary.

In those cases in which the Gentleman appointed to officiate in the situation mentioned under the preceding head, may belong to a different station an Extra Allowance is to be granted at the rate of 5 Rupees per diem.

Judge or Magistrate of a Zillah or City Court; Collector of Land Revenue or of Customs Commercial Resident; Salt Agent or His Assistant and Opium Agent or His Deputy.

Whenever the services of any of the Officers enumerated above may be required in the interior of their Districts or at any place within the limits of their respective local duties, no extra Allowance for travelling, or on any other account, is to be granted.

The foregoing Rule is not however to be considered applicable to the superintendants of Salt Chokies, who on the ground of established usage will be authorized to charge in a contingent Bill the bona fide expenses incurred by them in travelling through the extensive tracts of country respectively committed to their superintendence.

Magistrate, Collector of Land Revenue, Ditto of Customs, Opium Agent and Commercial Resident.

When a Register to Provincial Courts, or Assistant to any of the Officers enumerated above shall be deputed into the interior of the Districts to which they are attached or employed at any place within the limits of their respective local duties, they are to receive an Extra Allowance at the rate of Rs. 5 per diem.

When Register or Acting Register of a Zillah or City Court, shall be deputed or employed in the manner stated under the foregoing head, he is to receive an Extra Allowance at the rate of Sicca Rupees 10 per diem.

The additional Extra Allowance stated in the preceding head is intended to compensate for the loss of Fees, to which the Officer so deputed or employed will be subjected during his absence from his head station.

The Orders of Government in the Judicial Department, of the 13th October 1809, in regard to Absentees, are to continue in full effect.

These Orders direct, that any Civil Officer, who may obtain leave of absence, shall forward a Certificate to the Auditor's Office, signed by the person to whom he may deliver over charge and from whom he may again receive charge of his Office, specifying the date on which he may have relinquished, and on which he may have resumed charge respectively.

In cases in which it is not necessary, from the nature of the appointment, to depute a Civil Servant to relieve an Officer who has obtained leave of absence, the individual leaving his station is to forward to the Audi or a certificate from his immediate superior in Office or if he should have no immediate superior in Office, or if circumstances should render it impracticable to obtain such certificate, a notification attested by himself, stating the date of his return to it.

The Civil and Commercial Auditors will be instructed to pass all Bills for Extra Deputation Allowances, provided for by the foregoing Rules, without the delay of a reference to Government, and the certificate stated in the preceding paragraphs are to guide them in regard to the periods during which deduction, are to be made from the Salaries of Absentees, and in respect to the date; from which the Extra and Deputation Allowances are to commence, and the periods when they are to cease.

Memoranda.

COMMANDER IN CHIEF.

G. O. JANUARY 14, 1823. The Commander in Chief will receive the Heads of Departments, or during their unavoidable absence their Deputies or Assistants, on Public business from 10 to 12 o'clock in any of the days of the week, excepting Council days and Sundays.

His Excellency will receive all other Officers and Persons who may wish to see him on business on Mondays after 12 o'clock.

In cases of public emergency it is to be understood that the Commander in Chief, is to be seen at any time without exception day or night.

APPLICATIONS TO HEAD QUARTERS.

G. O. C. 21st JANUARY 1823. The Commander in Chief feels it necessary to apprise the Army at large that there are very few cases, and those of the most urgent nature, in which he can feel himself justified in dispensing with that most salutary Rule of Discipline and good Order which prescribes the Forms and Channels in and through which applications are to be made to Head Quarters, for Leaves of Absence, Promotions, and Appointments.

It is quite impossible to hold Commanding Officers of Regiments responsible for the important charge with which they are entrusted if their legitimate authority and controul over the members of their Corps is not duly maintained and upheld.

They alone are the fit judges in the first instance of the merits and claims which entitle the Officers and Soldiers under their Command to indulgence and consideration, and it is consequently to their judgement and recommendations the Commander in Chief mainly looks, for that information which may enable him justly to determine on the applications which are submitted for his decision.

All Applications involving the Personage of the Commander in Chief, are to be addressed to His Excellency's Military Secretary.

LETTERS TO HEAD QUARTERS.

All Letters to Head Quarters to be written on foolscap Paper, and if more than one side be written upon, the whole sheet to be sent. The Envelopes of Periodical Papers to bear on the outside a description of the enclosures, such as "Monthly Papers of the Battalion," "Register Report," &c. vide G. O. C. C. 19th June, 1817.

QUALIFICATIONS FOR THE GENERAL STAFF.

G. G. O. 31st Jan 1823. Agreeable with Order recently received from the Honorable Court of Directors, the following Regulation is published, for general information.

OFF-RECKONING FUND.

No claim against the Off-Reckoning Fund, for compensation in lieu of Clothing for any period in arrears exceeding two years, can on any account be admitted. APPLICATIONS FOR LEAVE OF ABSENCE.

G. G. O. Dec. 12, 1818. The Most Noble the Governor General in Council is pleased to lay down the following Regulations, in regard to the mode, in which applications for leave of absence, to proceed to sea, or on Furlough, are to be submitted to Government, by Staff Officers, whether attached to the Civil or Military Departments of the Service.

1 Officers employed in Public Departments and Officers at the Presidency, shall transmit their applications for leave to proceed to sea, or on Furlough, to the Adjutant General of the Army, for the purpose of being submitted to Government, under the orders of the Commander in Chief; and shall, at the same time, make the necessary report of the circumstance to the head of the Department under which they may be employed.

2 Officers holding situations away from the Presidency, and whose duties may be considered as purely Civil, such as Residents, Civil Surgeons, &c. shall, in the first instance, obtain leave to repair to the Presidency, from the authority under which they are immediately acting; and on their arrival there shall submit their applications for the ultimate leave, thro' the Adjutant General of the Army.

3 Officers serving on the Staff, in the Military Department, away from the Presidency, shall, thro' the prescribed channels, transmit to the Adjutant General of the Army their applications for permission to come to the Presidency, preparatory to submitting their request to be allowed to proceed to Sea, or on Furlough.

APPLICATIONS FOR SHIPPING ORDERS.

G. G. O. Dec. 4, 1823. In order to prevent an unnecessary multiplication of business, it is notified to the Officers of the Army, that in their application to the Department of the Adjutant General for Shipping Orders, whether they be about to embark on the Ships of the Honorable Company's or on Private Vessels, they are invariably to state the Names of the Individuals composing their families, who are to embark with them, in addition to their own.

Officers not having Families are to insert the words *no Family* in their application for Shipping Orders.

The Shipping Order for Servants, Natives of India, proceeding to Sea with Individuals, is procured on application direct to the Secretary in the General Department, on the prescribed Deposit being lodged in the General Treasury.

His Excellency the Commander in Chief is requested to direct, that all applications not made in conformity with the above directions, shall be returned to the parties.

REPORTS ON ARRIVING AT OR QUITTING THE PRESIDENCY.

G. O. C. C. Nov. 10, 1820. The Commander in Chief finds it necessary to republish the existing Regulations respecting the Reports required from Officers coming to the Presidency, and to direct that they be strictly complied with in future. The General Officer Commanding at the Presidency is requested to take immediate notice of any neglect of these orders which he may observe.

2 Officers arriving at the Presidency from Furlough, from Sea, or on leave, are to report their arrival at the Office of the Adjutant General, and of the Town Major, as well as to the Officer Commanding the Presidency Division (at Barrackpore). On leaving Calcutta, either to embark on board Ship or to rejoin their Station, they are enjoined to report the circumstance to the same authorities. These reports may be made in writing if indisposition should prevent an Officer from making them in person. All Officers coming to the Presidency are to report in writing their place of residence, or address, to the Adjutant General, and to the Presidency Major of Brigade.

3 In addition to the report abovementioned. Medical Officers are to report to the Secretary of the Medical Board; Officers in the Ordnance and Barrack Department to the Secretary to the Military Board, and other Staff Officers generally to the Head of their Department.

4 All Officers are directed during their residence at the Presidency, to attend occasionally at the Town Major's Office in Fort William, or at the Brigade Office at Barrackpore, for the purpose of making themselves acquainted with the General Orders that have been issued from time to time.

G. O. C. C. March 29, 1821. All Officers coming to the Presidency, whether on duty or leave of Absence, are reminded of the Standing Order of the Service, by which they are required to report their Arrival and Departure to the Town Major of Fort William.

G. G. O. May 24, 1822. The Most Noble the Governor General in Council directs that every Officer in the Honorable Company's Army on the Bengal Establishment, quitting his Corps or Station on Sick leave, shall procure from the Medical Officer who has attended him, in addition to the Certificates prescribed by General Orders of the 18th July 1807, a detailed Statement of his Case, with an Account of its Symptoms, past treatment, present State, and the Opinion of the Medical Officer as to what Change of Air, whether the River, Sea, Cape of Good Hope, or Europe, may be necessary for the restoration of health.

When the Sick Officer has occasion to apply to any other Medical Officer for Assistance after having left his Station, he is to submit the beforementioned Statement to such Medical Officer, together with a Copy of the Medical Certificate, and the Medical Officer will mark such Observations on the Statement, as the nature of the Case may require.

On the arrival of a Sick Officer in Calcutta, he is to apply to a Presidency Surgeon submitting the Statement and Medical Certificate before mentioned, when the Presidency Surgeon will either direct him to wait on the Medical Board furnished with a Certificate from himself, or retain him under his own care, as may to him appear necessary.

The duty of Examining Sick Officers at the Presidency, is to be taken in rotation Monthly by the Members of the Medical Board, the Secretary of which will acquaint the Adjutant General of the Army with the name of the Examining Member on the 1st day of each Month.

In case an officer falls ill when absent from his Corps, he is to procure the prescribed Statement and Certificate from the first Surgeon he may apply to, following the directions above given in his subsequent proceedings.

The Examining Member of the Medical Board being satisfied on a perusal of the Statement and a personal examination of the Sick Officer, that a Voyage to Europe, or to Sea, is absolutely necessary towards recovery, he will countersign the Certificate to that effect, which will have been previously granted by the Presidency Surgeon.

Every Company's Officer desirous of proceeding to Europe or any place beyond Sea, is to send his Application to the Adjutant General, accompanied by a Certificate from the Presidency Paymaster countersigned by the Accountant Military Department, that no demands exist against him in the Pay Department, (or in lieu thereof, in the event of his being unable to procure such Certificate from his accounts being unadjusted, by an engagement on the part of some respectable house of Agency to be responsible to Government for any claims that may eventually appear against him in the Pay Department) together with a Medical Certificate, signed as before stated, if the application be grounded on ill health. The name of the Vessel on which he intends to proceed to be stated in the application, or as soon after as practicable, with a request for authority to be received on board.

Officers proceeding to Sea, who omit to send to the Secretary to Government Military Department, and to the Adjutant General Certificates signed by the Pilot, of the date of dispatch of the Vessel on which they proceed, have their leave of absence calculated from the date of the Government General Orders granting the indulgence, instead of from the date of the Pilot's quitting the Ship; vide G. G. O. 25th Sept. 1810.

The other Moiety of his Salary and every Allowance for Office or Establishment, shall be drawn by the Officer doing the duty of such Absent Staff Officer.

"The Regulations above laid down, are to be applied only to the cases of Officers who shall return to India, after Leave of Absence, obtained either on account of sickness or of Private Affairs, or who shall die without having previously obtained permission to proceed to Europe. But all Officers quitting India on leave of Absence, on account of Sickness or of private affairs, who shall proceed to Europe without having returned to India shall be considered as on furlough to Europe, from the dates on which they shall have respectively left India, and their Furlough shall be considered to have ceased from those dates agreeably to the provision made in the 33d Geo. 3d Cap. 50, Sec. 37."

REGULATIONS REGARDING DRESS.

G. O. C. C. JUNE 8, 1821.—The Commander in Chief takes the present opportunity to signify his disapprobation of any fanciful alteration being made either in the dress or undress Regimental Uniforms by Commanding Officers, and all such which may have been adopted without the sanction of His Lordship through the Adjutant General, are to be immediately laid aside.—No device or ornament is to be worn on the Strap of the epaulet not authorized by the rules issued in General Orders dated 16th October 1801, which are to be strictly attended to, with the exception of Officers having the Rank of Colonel by His Majesty's Brevet, who are in future to wear a Crown and one Star on each epaulet, instead of two Stars as directed in the Order abovementioned.—No Officer under the rank of a Field Officer is to wear two Lapulets. Officers of Grenadiers are to wear suitable Wings as at present in use with Officers of Light Infantry. The Wings of Grenadier Officers are to be with scales instead of Chains, and to have a hand grenade on each.

Regimental Officers of all Ranks are reminded that, though Cocked Hats are permitted to be worn with the full dress, —long Coats, Breeches, Stockings, and Shoes — it is improperly adopted by them with their Field Uniforms, and is strictly forbidden, as well as the Fara in Cap in which some Officers make their appearance in the Evening. On such occasions the Regimental Chako is the only allowable Head-dress.

G. O. C. C. MARCH 18, 1822. The Commander in Chief is pleased to notify to the Army, that the Coats for the year 1822, due on the 1st January 1822, will be made with the distinctive facings of each Regiment.

This early intimation is given for the information of the European Officers, that they may be prepared to make a corresponding change in their dress; but this is not to take place until Clothing with the new facings shall be issued to Corps respectively; and the Clothing Agents are reminded of the General Order

of 7th July 1817, directing them to notify to Commanding Officers when they are enabled to commence upon the preparation of Coats with the prescribed facings for their Regiments.

The Commander in Chief has thought proper to continue the present uniform double breasted Jacket, which is to be worn with the lapels buttoned over when on duty.

The Raggy or Swiss Jacket, with loose white Linen Overalls or Trowsers for the Hot weather, and Grey Woollen Trowsers for the Cold season, is permitted as hitherto on the line of march, on duties of fatigue at Regimental drills, and in situations not connected with Parades or other public occasions. It must however be kept in mind that the original object of this indulgence was to supply a suitable light and cheap uniform for such occasions. It is therefore to be quite plain with the Regimental Cuff, Collar, and Buttons; but without lace or embroidery.

Officers are also permitted to wear as an Undress Cap, along with the Swiss Jacket, a plain light Chako with an Out-skin Cover but without scales or feathers. G. O. C. C. APRIL 8, 1822. Several instances of a wide deviation from the Regulations in force respecting uniform in Dress having been lately brought to the Commander in Chief's notice, His Lordship finds it necessary to call the attention of Officers Commanding Divisions, Stations, and Corps, to the existing Orders on this subject; and to desire that they will see them obeyed by all under their Command. It must be kept in mind that no inferior authority is competent to sanction any departure from the Rules laid down by the Commander in Chief in General Orders; and no Article of Dress or Equipment ought to be adopted, or altered, in any Corps, without His Excellency's authority being previously obtained.

2. His Lordship desires to take this opportunity of explaining some points relative to the Orders regarding Dress, which appear not to be clearly understood, and to add one or two Regulations which are wanting.

3. The Regulations regarding Military Dress and appearance were never intended to apply to Officers when engaged in Field Sports, or in active recreation, (such as Fives or Cricket;) but those who go out for Morning exercise about the Station, are expected always to appear in a Military Uniform. The Regulation Undress Jacket and Cap (with a Great Coat when the weather requires it) furnish a Dress which is perfectly convenient, and well adapted for such occasions.

4. On visits of Ceremony, and on other public occasions where Officers (not on Duty) are expected to appear in full Uniform, the Sword may, at the option of the Officer, be worn under the Coat, attached to a Waist Belt of narrow white silk, without any plate. The Coat may be worn open; and the Sash is dispensed with.

5. The Commander in Chief is disposed to allow every reasonable indulgence on account of the Climate—During the Hot Season therefore, His Excellency does not require that Officers who are not on duty, shall wear their Regimentals during the forenoon, except on occasions of Ceremony; but on the other hand, he expects that no person shall go abroad in the Evening without being properly dressed in his Uniform. Loose Trowsers or Overalls with Ankle Boots have been permitted as an Undress, but on all occasions of Dress or Ceremony, tight Pantaloon (of White Kersymere, Web, or Cotton, according to the Season) and half Boots are to be worn.

6. Uniform great Coats are authorized to be worn by Officers on the Line of march, on Out-Posts, and on all duties of fatigue. Those for the Infantry to be of Regulation Grey, and similar to those worn by Officers of His Majesty's Regiments of Foot, Cavalry and Staff Officers to wear blue great Coats, similar to those worn by Officers of Dragoons and by Staff Officers in His Majesty's Service.—The Officers of Artillery are also to wear Uniform Blue great Coats. No alterations in the patterns now adopted is to take place without authority from Head-Quarters; and after the 1st of October next, no Pelisses or Cloaks, or any other but the Regulation great Coat now prescribed, is to be worn by Officers on the Line of March, or on duty.

“ To the Honorable Court of Directors of the

“ United East India Company

No. IV. (*Medical Certificate*)--- This is to certify, that Mr. --- has no mental or bodily defect that may disqualify him for military service.”

QUALIFICATION. The cadet must write a good legible hand, as he will be required to write down a sentence from dictation by the Head Master, and if he should be found deficient in this respect, or in his Orthography, his reception into the institution will be suspended for such length of time as the Head Master shall report to be necessary: he must be able to read and construe Caesar's Commentaries, and be exact in vulgar and decimal fractions. If the Cadet be admitted the Head Master's certificate may be sent to Mr. Abington, clerk to the Military Seminary Committee at the East-India House, by the first convenient opportunity.

PAYMENTS. The Cadet will be required to pay £40 per annum into the Company's Treasury, and two payments must be made in advance, towards defraying the Company's annual expense for his board, lodging, and education, and for supplying him with the following articles, viz.

Books, stationery, mathematical instruments, drawing materials, repaying his clothes, pocket money at the rate of 2s. 6d. per week, medical attendance, and washing; as also with a periodical supply of the following articles:

Jacket, waistcoat, black silk handkerchief, and foraging cap, half yearly; pantaloons and gaiters, quarterly; shoes, every two months; linen, when necessary in the opinion of the head master.

The Cadet, upon the first year of his admission, will likewise be required to pay into the Company's Treasury the additional sum of £13. 16s. 5d. for which he will be furnished, at the Company's seminary, with the following articles by their contractors, viz.---one military great coat, one uniform jacket and waistcoat, two pair trousers, two ditto of gaiters, two ditto of military gloves, two ditto of strong shoes, two black silk handkerchiefs, a foraging cap, one military cap and leather, with plate in front embossed with Company's arms.

The payments for the first year, therefore, will be £53. 16s. 3d. and £40 the succeeding years.

Necessaries to be provided by the Cadet when he joins the Seminary:---Ten shirts, six pair of cotton stockings, six pair of worsted ditto, six towels, six night caps, six pocket handkerchiefs, two combs, a brush, and a tooth-brush.

When the Cadet attends to be passed by the committee, he must give in the name and address of some friend residing in or on its vicinity who will receive him if he shall be dismissed or removed from the Seminary.

SECURITY. The Cadet will likewise be required to give in the names of two persons (housekeepers) to be his security against damage to the Company's premises, or the head master's property, and also to reimburse the Company in the event of his not going to India in the Company's service.

PROHIBITION. The Cadet must not join the Seminary with a greater sum than one guinea, and a further supply from any of his relations during the term may subject him to dismission from the Seminary.

VACATIONS. Midsummer commences 17th June, ends 31st July. Christmas commences 22d Dec. ends 31st Jan.

At the close of every vacation, the cadet must apply at the Cadet Office at the East India House for an order for his re-admission, and all sums then due to the Company must be paid up. This order will express that he is only to be re-admitted upon his returning with the same number of books and instruments which he took home with him, and that his men be put into proper repair.

As the parents or friends of many of the cadets reside in Scotland, Ireland, or other distant parts, and cannot have the cadets under their control during the vacations, arrangements have been made for the continuance of such cases at the Seminary, and also of such other cadets as may be desirous of devoting their holidays to the advancement of their education.

The expense attending the board and lodging of the cadets during the vacation will be charged to their relations or friends, at the rate of two shillings and sixpence per diem.

CAVALRY OR INFANTRY CADETS.

Cadets nominated for either of the above corps must be 16 years of age, and under 22, unless they have held a commission and actually done duty in its Majesty's service for one year, or in the militia or yeomanry for the same period; they are therefore liable if not more than 25 years of age, and they must procure similar certificates and vouchers to those prescribed for cadets entering the seminary.

ASSISTANT SURGEONS.

Regulations for their Admission into the Honorable Company's Service.

AGE. Not to be under twenty years; in proof of which he must produce an Extract from the Register of the Parish in which he was born, or his own Affidavit.

QUALIFICATION. A Diploma from the Royal College of Surgeons of London, or of the Colleges of Surgeons of Dublin or Edinburgh, or of the College and University of Glasgow, or the Faculty of Physicians and Surgeons of Glasgow, is deemed satisfactory as to his knowledge of surgery. The above testimonials must be produced upon his receiving his nomination from a member of the Court of Directors. The Assistant Surgeon will then be sent to Dr. Chambers, the Company's examining Physician, with the undermentioned letter.

"Sir, I have the commands of the Committee for passing Military appointments, to request you will please to examine Mr. ———, and certify whether he is now qualified in physic to serve as an Assistant Surgeon at any of the Company's Presidencies in the East Indies; and if not, at what period you think he may be sufficiently qualified to obtain your certificate."

The following regulations have been resolved on by the Court, in reference to the examination by Dr. Chambers:

That every person nominated an Assistant Surgeon be required to pass an examination in the practice of physic, in which examination will be included as much anatomy and physiology as is necessary for understanding the causes and treatment of internal diseases, as well as the art of prescribing and compounding medicines.

That upon the Assistant Surgeon presenting himself to Dr. Chambers, he be required to produce to him satisfactory proof of his having attended at least one course of lectures on the practice of physic, and above all, of his having attended diligently the practice of the Physicians at some General Hospital in London, Edinburgh, Dublin, or Glasgow, for at least six months; and that unless he produce such proof, he be deemed a want of proper qualification, and be immediately reported as such by the examining Physician, to the Committee for passing military appointments."

The Assistant Surgeon will likewise be required to attend one course of Dr. Gilchrist's Lectures in Hindoostanee, for admission to which he will have to pay not more than Three Guineas, and previous to his passing the Committee, he will be required to produce Dr. Gilchrist's certificate of his having so attended.

The Assistant Surgeon will finally be required to execute covenants in the Secretary's Office and find security in two persons to the extent of £500, jointly and severally for the due performance of these covenants.

PASSAGE MONEY. If the Assistant Surgeon should proceed in one of the Company's ships, he will have to pay £9 for his accommodation at the Captain's table, or £55 for his accommodation at the Third Mate's mess; and his passage money must be lodged in the hand of the Company's Paymaster, for the said Captain or Third Mate.

APPOINTMENTS NOT TO BE PURCHASED.

At a Court of Directors, held on Wednesday, the 9th August 1809.—Resolved. That any person who shall, in future, be nominated to a situation, either civil or military, in the service of the Company, and who shall have obtained such nomination in consequence of purchase, or agreement to purchase, or of any corrupt pretence whatsoever, either direct or indirect, by himself or by any other person, with or without his privities, shall be rejected from the service of the Company, and ordered to go to England; if he shall have proceeded to India, or ere a discovery of such corrupt practice be made, and if such nomination shall have been so corruptly procured by himself or with his privities, he shall be rendered incapable of holding that, or any other situation whatsoever, in the said service. Provided always, that if a fair disclosure of any corrupt transaction or practice, of the nature before described, wherein any Director has been concerned, shall be voluntarily made by the party or parties engaged in the same, with such Director, the appointment thereby procured shall be confirmed by the Court.

PASSAGE MONEY TO CADETS.

Upon the friends of each cadet paying the regular amount of the passage money to the Company's paymaster, such cadet be required to sign a declaration, upon honour, that he has not paid, or caused to be paid, nor will pay or cause to be paid, either directly or indirectly, by himself or by any person on his behalf, any sum for his accommodation, either to the commander or mate, than that prescribed by the Court's regulations.

In the event of its appearing at any future time, that a further sum shall have been paid by or for any cadet, such cadet will be placed at the bottom of the list of rank of the season to which he was appointed.

SUPERINTENDENT OF CADETS.

To obviate as far as practicable, the extreme inconvenience to which cadets are liable on their first arrival in India, from the rising exhibition expenses at Taverns, to which they generally refer, before any arrangement can be made for their occupying quarters in Fort William, an Officer has been appointed under the immediate orders of the Town Major, to receive charge of a cadets a rising from England, and retain command of them, until they proceed, under orders from His Excellency the Commander in Chief, to join a Regiment.

It is the special duty of this Officer to supply Cadets with Servants, to see that they are settled in Quarters, and generally, to protect them from the extortion and impositions of Native Agents.

On the arrival of a vessel from England, this Officer will immediately be apprized of it; and of the number of cadets on board, if any, in order that suitable arrangements may be made for their reception.

The Superintending Officer dines daily with the Cadets, and Breakfasts with them, at least twice a week, for the purpose of keeping up that perfect regularity so essential to Mess Institutions, and in order to enable him to assist the Gentlemen cadets in procuring servants, and such articles as may be necessary for their immediate comfort, the Presidency Pay Master is authorized to advance Two Hundred Rupees on account of each cadet, on the receipt of the Superintending Officer accompanied by a Certificate of arrival from the Town Major.—this advance to be separately accounted for to each Individual, and any balance remaining to be finally made over on his quitting the Mess, the total advance being ultimately deducted in Monthly instalments of 50 Rupees, by the Pay Master of the Division, within whose circle the Corps to which cadets are attached, may be respectively situated.

The above arrangement being made with the sole view of assisting cadets on their first arrival in India, it will be entirely optional with them to avail themselves of it; and it is hereby intimated, that those who may have friends in Calcutta, are not required to join the Mess in Fort William.

FURLOUGH REGULATIONS.

Officers (of whatever rank) must be ten years in India, before they can be entitled (except in case of certified sickness, and as hereafter specified) to their

rotation to be absent on furlough, and the same rule is applicable to assistant military surgeons.

Officers who have not served ten years in India, but whose presence in England is required by urgent private affairs, may be allowed a furlough for one year without pay, on furnishing an affidavit of the urgency of the case, in which the circumstances are to be briefly noticed.

Officers after arrival at the Presidency, and to address their applications, for furlough to the Adjutant General, enclosing therein a Certificate from the Presidency Pay Master, and Accountant to the Military Department, if there being no demands against them (or in lieu thereof an Engagement on the part of some respectable Agency House) and also a medical Certificate from a Presidency Surgeon, countersigned by the Examining member of the Medical Board if the application be grounded on ill health. A Certificate signed by the Pilot of the name of dispatch of Vessels, in which Officers embark to be sent to the Adjutant General and also to the Secretary to the Government Military Department.

A chaplain after seven years residence in India is allowed to go home on furlough and receive the pay of major. Should he go home from sickness prior to this period of service, he is allowed the pay of captain only.

A conductor of stores is allowed furlough pay, only in case of going home from sickness.

Officers going to England on furlough are required immediately to report their arrival by letter to the Secretary, stating the name of the ship in which they arrived, and their address forwarding at the same time the certificates they received in India.

The period of furlough is three years, reckoning from its date to the day of the return of the officer to his presidency.

Officers are required to join the establishment to which they belong, at the expiration of the three years furlough, unless they shall have obtained an extension of leave from the Court six months before the expiration of that period. No furlough will be extended except in cases of sickness certified in the manner hereafter mentioned; or in cases, in which it shall be proved to the Court that a further residence in Europe is indispensably necessary.

All officers finding it necessary to solicit a further leave of absence on account of sickness, must transmit with their letter of application for such leave, a certificate signed by at least two gentlemen eminent in the medical profession, describing the nature of the applicant's complaint, and stating it to be their opinion that the circumstances of the case render a compliance with his request absolutely necessary. Also previously to such extension on furlough being granted, such further proof shall be adduced by personal examination, or by such other evidence, as shall be deemed satisfactory.

Officers abroad in any part of Europe, applying to remain a further time from their duty, on account of sickness, are to furnish a certificate of two eminent physicians, with the attestation of a magistrate, that the persons who signed the certificate are physicians.

Officers having obtained an extension of furlough to a given period, must at its expiration apply for permission, either to return to their duty, or to reside a further time in England.

No officer who has failed to obtain an extension of Furlough, will be considered eligible to return to the service after five years absence under the Act of the 33, Geo. III. chap. 52 sect 70.

Every officer upon leaving India will receive a printed copy of the General Order on this subject, published agreeably to the Court's instruction, and the plea of ignorance of the regulations will not be admitted as any justification of the breach of them; officers therefore who shall come home on furlough and who shall not in due time apply so as to effect their return to the presidency to which they belong within the period of three years from the commencement of their furlough, will subject themselves to the loss of the service, unless they shall be permitted by the Court to remain a further time in Europe.

No officer on furlough can receive pay for more than two years and a half from the period of his quitting India, excepting colonels of regiments, and those of the rank of lieutenant colonel regimentally when promoted to that of major general; the latter are then allowed to draw the pay of their brevet rank beyond the above period.

"No officer who shall have held any civil or military station whatever in India, in the service of the united Company, being under the rank or degree of a member of Council or commander in chief of the forces, and who, having departed from India on leave of the Governor-General in Council, or Governor in Council, shall not return to India within the space of five years next after such departure, shall be entitled to any rank or restoration of office, or be capable of agitating to do so, either in the European or native corps of troops, or in the civil line of the Company's service: unless, in the case of any civil servant of the Company, it shall be proved to the satisfaction of the Court of Directors, that such absence was occasioned by sickness or infirmity, or unless such person be permitted to return with his rank to India, by a vote or resolution passed by way of ballot by three parts in four of the proprietors assembled in general court, specially convened for that purpose whereof eight days previous notice of the time and purpose of such meeting shall be given in the *London Gazette*, or unless, in the case of any military officer, it shall be proved to the satisfaction of the said Court of Directors and the board of commissioners for the affairs of India, that such absence was occasioned by sickness or infirmity, or some inevitable accident.

OFFICERS RETIRING FROM THE SERVICE.

Regulations respecting Military and other Officers retiring from the Company's Service.

Every officer after two to two years actual service in India, is allowed to retire with the pay of the rank to which he has attained; but such pay is to be the same only as that allowed to officers of infantry.

A member of the Medical Board, who has been in that station not less than two years, and not less than twenty years in India including three years for one furlough, is permitted to retire from the service and allowed £500 per annum.

A surgeon of general hospital, or superintending surgeon, who has been in that station not less than two years, and whose period of service has been not less than twenty years, including three years for one furlough, as above, is permitted to retire from the service, and allowed £300 per annum.

All other surgeons and assistant surgeons attached to the military are permitted to retire from the service on the pay of their rank, after having served seventeen years in India.

An assistant surgeon, after the said period of service who shall not have attained the station of head surgeon, is allowed to retire on a pension of £50 per annum.

A chaplain after eighteen years service in India, (ten of which at a military station,) including three years for one furlough, is allowed to retire with the pay of major.

A chaplain having served ten years in India, whose constitution will not admit of his continuing in the service, may retire on the half pay of major, after seven years, on the half pay of captain.

A commissary or deputy commissary of ordnance, not being a commissioned officer, is allowed to retire on full pay, if he has served twenty-seven years in India, of which twelve must have been in the ordnance department; twenty-five years, fourteen of which in that department; or twenty-two years, seventeen years of which in the ordnance department.

A conductor of ordnance is allowed to retire on £60 per annum after twenty-five years actual service in India.

Every lieutenant-colonel, major, or captain is allowed to retire with the *half pay* of the rank to which he has attained, in case his health shall not permit him to serve in India, but he can only be allowed the pay of the rank he held at the expiration of twelve months from his arrival in Europe.

A lieutenant having served thirteen, or an ensign nine years in India, including three years for a furlough may retire on the *half pay* of his rank in case his health shall not permit him to serve in India.

A subaltern officer, or military assistant surgeon, having served six years in India is permitted to retire on the *half pay* of *Esquadrant*, if his constitution should be so impaired as to prevent the possibility of his continuing in India.

Every officer returning on furlough, and wishing to return from the service, must make a declaration to that effect, within twelve months after his arrival in England; and in case of his neglecting so to do, he must at the expiration of his furlough, either return to India, or be held to have relinquished the service, and not be entitled to retire on pay, unless he has continued to serve in India, from his first arrival, for the space of *twenty two years* without having a furlough; in that case he is allowed *two years* before he shall be called upon to signify his intention of retiring, but he can only be allowed the pay of the rank he held at the expiration of twelve months from his arrival in Europe.

Officers retiring from the service after two years furlough, will be considered to have retired at the expiration of two years from the date of their landing in England, unless they shall have previously obtained an extension of their furlough, and officers who shall retire after having obtained an extension of furlough, will be considered to have retired from the date of expiration of such additional furlough, or from the time when the requests of such officers to retire or resign are laid before the Court, whichever shall happen first.

BOAT ALLOWANCE.

REGULATIONS.

G. G. O. 16TH DEC. 1816. The Right Honourable the Governor General in Council is pleased to authorize Officers of His Majesty's Service, who become Supernumerary to the complement attached to Regiments, to draw the Half Batta, and the House Rent, (if not furnished with quarters) of their Regimental Rank, during the time they may be detained in India; also Boat Allowance from the Station at which their Corps is stationed, to the Presidency, when directed by the Commander in Chief to proceed by water.

G. G. O. 19TH SEPT. 1818. The Most Noble the Governor General in Council is pleased to publish the following resolutions of Government, on the subject of Boat Allowance to Officers: viz.

1. Whenever a Regiment, or any number of Troops or Companies of a Corps move by water, the proportion of Officers' full Ranks regularly belonging to, and on the Establishment of such Regiment or Companies of a Regiment as the case may be, will naturally move with their men, and draw in course the Boat Allowance of their ranks in addition to their Tentage.

2. If from a deficiency of Officers or other cause, the Commander in Chief, shall consider it necessary to order any additional Officers of whatever rank, to join and do duty with such Regiment or Companies of a Regiment, His Excellency will be pleased to represent the case to Government, when Boat Allowance in addition to Tentage will be granted to the requisite number of Extra Officers.

3. In the case of drafts, detachments or recruits proceeding to join Corps by water, or of Invalids, Supernumeraries, or time-expired men returning to Fort William, Boat Allowance in addition to Tentage, will be granted, on the representation of the Commander in Chief, to the following proportion of Officers.

For any Detachment under 50 men, one Subaltern. If above 50 and under 60 men, two Subalterns, and so on in the same proportion; with the addition of one Captain for every Detachment, consisting of not less than three or more than five such Subaltern's parties, Two Captains for Six and not more than eight such parties, and so on, also with the further addition of one Field Officer for every Detachment, consisting of not less than three Captain's parties as above detailed.

4. The names of all Officers appointed to do duty with Detachments as Extra Officers with Regiments or Companies of Regiments proceeding by water, are to be specified in General Orders or Division, or Station Orders, (as the case may be) for the convenience of more readily auditing their Bills.

5. The Governor General in Council extends the indulgence of Boat Allowance to all Captains, Assistant Surgeons, and Subaltern Officers, on their arrival for the first time in Bengal, and being ordered to join a Regiment; the same indulgence is extended to Gentlemen appointed in India to Commissions in His Majesty's Army or in the Local Corps; to Ordnance and Warrant Officers, and generally to persons newly appointed and, for the first time, proceeding to join their Corps or Station, but Officers and others availing by this indulgence, are to cease drawing their Tentage from the day of their being ordered to embark and join until the expiration of the period for which they received Boat Allowance.

6. His Excellency the Commander in Chief, will be pleased, in all possible cases, to employ individuals of this last description on duty with Detachments, where Extra Officers drawing both Boat and Tent Allowances, shall be required, under the provisions of the 2d and 3d Clause of the order. This preference will reduce as much as possible the charge which must be incurred by the indulgence now granted to all young Officers on their first arrival.

7. One Medical Officer will always be permitted to proceed on duty with every Detachment of Europeans, and such Officer will be permitted to draw Boat Allowance in addition to Tentage.

8. Whenever the Commander in Chief, may be of opinion that the presence of a person conversant in the Languages is essentially necessary with a European Detachment, and that none of the Officers attached to it, or proceeding to join Corps on Boat Allowance under the 6th Clause of this Order, are competent to the duty in question, His Excellency will be pleased to recommend any Officer qualified to officiate in the capacity of a Linguist, such Officer will be permitted to draw Boat Allowance in addition to Tentage.

9. In all other cases, except those above specified, Officers drawing Tentage are invariably to proceed at their own expence on any duty on which they may be sent unless ordered specially by water in charge of Troops, Stores, or Treasure, by the Commander in Chief with the sanction of Government previously obtained. When any particular occasion appears to His Excellency to call for special indulgence, such

case is to be referred for the decision of the Governor General in Council in the first instance agreeably to the practice in regard to all matters operative of execution, unless when the Commander in Chief may be in the Field, or when a pressing emergency shall appear to a General or other Officer in Command to be such as shall justify him in ordering Boat Allowance on his own responsibility. In such cases, the General or other Order shall be considered by Paymasters as a sufficient warrant for immediate Payment of a Boat Allowance Bill, and the necessary sanction to the Audit Department for adjusting the same, will be issued by Government on the representation of His Excellency the Commander in Chief.

10 The regulations now laid down, are not to be considered as affecting in any way Half Pay or cashiered Officers, whose cases are provided for by General Orders of 16th December 1816.

G. G. O. 27TH MARCH 1819.—With reference to General Orders of the 19th of September last defining the Situations in which Officers would be permitted to draw Boat Allowance, the Most Noble the Governor General in Council is pleased to publish the following additional Rules.

Whenever a Lieutenant, Cornet, Ensign, or Cadet is for the first time, permanently Posted to a Corps he will be permitted to Draw the Boat Allowance of his Rank, from the Cantonment in which he may be doing duty, to the one where his Regiment may have been stationed, altho' he may have been previously receiving Tent Allowance with the Corps, to which he had been temporarily attached, provided that prior to his being finally posted, he shall not have been in the receipt of Full Regiment Allowances, for the Term of 8 Months.

It is to be clearly understood, however, that Officers drawing Boat Allowance under this Regulation, shall forfeit their Claim to tentage during the period for which Boat Allowance may be drawn.

G. G. O. 14TH APRIL 1821.—Misapprehension appearing to exist as to the extent which the special indulgence of Boat Allowance sanctioned by Government to Cavalry and Horse Artillery Officers when ordered to repair to Ghazepore, for the purpose of admitting Horses into the Service, the property of the Hindustani Company, is extended to embrace, the Most Noble the Governor General in Council notifies to the Army, that return Boat Allowance to his Corps, can only be passed to an Officer who may actually have been serving with it at the period of his nomination to the Committee; Officers absent from their Regiments who are appointed to the Ghazepore Committee, will draw Boat Allowance from the Station where that order may reach them to Ghazepore, and in return thence to such Station provided it is not below Benares.

CONDUCT OF OFFICERS ON BOARD SHIP.

It having come to the knowledge of the Court of Directors that the good order and wholesome practices, so merily observed in the Company's Ships, have been laid aside, and late hours and the consequent mischiefs introduced, by which the Ship has been endangered, and the decorum and propriety, which should be maintained destroyed; they have thought proper to frame the following Regulations on these points, to which the readiest acquiescence is expected, and any person offending against them, will incur the Court's high displeasure, viz.

Resolved—That, in order to prevent any accident from the fire and lights being kept up beyond those hours usually observed in all proper disciplined Ships, it is strictly enjoined, that no fire be kept up beyond eight at night, unless for the use of the sick, and then only in a Stove, and that candles be extinguished by nine between decks, and ten, at latest, in the Cabins, and that the utmost precautions be observed to prevent their being visible to any Vessel, passing in the night.

That the hour for dinner be not later than two o'clock, and when the Commander of the Ship retires from Table, either after dinner or supper, the Passengers and Officers of the Ship retire also.

That the Captain be strictly enjoined to pay due attention to the comfortable accommodation and liberal treatment of his Passengers, at the same time setting them an example of sobriety and decorum, as he values the pleasure of the Court.

That any excess or disorderly behaviour below, being equally repugnant to the good order and discipline of the Ship, with on representation, be noticed by the Court of Directors, and not fail to incur their displeasure.

That any improper conduct of the Officers of the Ship, towards the Passengers, or each other, shall be quietly made known to the Commander, who shall weigh the circumstances with impartiality, and if conciliation be ineffectual, decide, according to the best of his Judgment; and every person concerned, be expected quietly to conform thereto; but should any one think himself aggrieved thereby, he may appeal to the Governor and Council of the first settlement the Ship arrives at, or if homeward bound, to the Court of Directors.

The diversity of characters and dispositions which must meet on Ship board makes some restraint upon all necessary, and any one offending against good manners, or known usages and customs, will on representation to the Court, be severely noticed.

CODE OF REGULATIONS.

The Modification and Changes in several of the Regulations which were proposed to the Members of the Military Widows' Fund in 1820, having been adopted and being now in force, it was resolved at the General Meeting held on the 1st May, 1821, to incorporate them with the old rules, and thus to compile into one body, the whole of the existing REGULATIONS OF THE BENGAL MILITARY WIDOWS' FUND; which the DIRECTORS have accordingly done and now publish for general information.

1st.—All persons making donations to the Fund, shall be considered as Friends and Patrons of the Institution.

2nd.—Officers in the Honorable Company's Military Service, Chaplains and Surgeons on the Bengal Establishment, are alone admissible into the Society.

3rd. All Commissioned Officers, Chaplains and Medical Officers (whether attached to the Military or Civil branches, or to the list of Assistant Surgeons who have given up promotion) are at liberty to subscribe to any of the ranks or classes of the Fund; on paying the donation established for such rank, and in all respects complying with the existing Rules of the Institution, as laid down for such classes.

4th. The following are the rates of monthly payments to the Fund from (*unmarried*) SUBSCRIBERS and from (*the married*) MEMBERS of the Fund.

5th. Officers who have not contributed to the Fund by monthly subscriptions for five years before they become Members, are on that occasion to pay a donation according to the following Table, proportioned to the time they have subscribed.

Table of the Donations from Members Subscribing in their Regimental Rank.

<i>Rank.</i>	<i>Under 2 years Sub- scription.</i>	<i>After 2 years.</i>	<i>After 3 years.</i>	<i>After 4 years.</i>

Colonel.....	3000	2000	1000	600

6th. Five years continued subscription in any rank in immediately preceding marriage entitles an Officer to admission as a member of that Rank, without paying any donation; but in the event of promotion previous to becoming a Member, he must pay the sum fixed for Members on their promotion by Rule 13th, together with arrears of the difference between his actual subscription for five years, and that of the higher rank in which he is to be admitted a Member.

7th. *Unmarried Subscribers* are not required to continue their subscriptions while on Furlough, and by renewing them immediately upon their return, they resume their place in the Institutions with all the benefits which the preceding Rules (5 and 6) confer upon the class of old Subscribers.

8th. No married Officer shall be admitted as a Member, whose wife is not actually residing in India at the time he makes his application.

9th. All married Officers who may wish to become Members of this Society must signify their intention to the Directors through the Secretary, within three months after their marriage, or the arrival of their wives in Bengal.

10th. Married Officers who may neglect to apply for admission within three months after their marriage or after the arrival of their wives in Bengal, shall, upon being admitted, pay double the monthly subscription of Members of their own rank for the months which have elapsed since their marriage, or the arrival of their wives in Bengal; and also in addition to the donation which they are liable to pay by the foregoing Regulation, shall contribute in the following proportions:

Colonel	-	-	-	Sonat	Rs. 1000
Lieutenant Colonels and Members of the Medical Board	-	-	-	-	600
Majors, Superintending Surgeons and Chaplains,	-	-	-	-	400
Captains and Surgeons,	-	-	-	-	250
Subalterns and Assistant Surgeons,	-	-	-	-	150

11th. Officers and others, already Members of the Fund, are permitted *now or at any future time*, to become Members of a higher class, on paying the prescribed donation;* and on otherwise complying with the existing Rules for such higher class, in all respects as if they were promoted to superior rank in ordinary course; pro-

* See the Table of Donations in Rule 14th.

vided always, that on every occasion of an officer desiring to subscribe to a higher class, and thereby to increase his premium and risk he do furnish a fresh certificate of health in the prescribed form.

12th. Members to whom it may be inconvenient to continue high subscriptions, are at liberty to descend to a lower class in the scale, but should they wish to rise *again* to a higher class, they are to conform in *every respect* to Articles 14th and 16th in regard to certificate and donation.

13th. Members subscribing to their own rank, shall pay the following sums on their admission to the next higher rank after promotion.

Subaltern to Captain, - - -	Sonat Rupees, -	100
Captain to Major, - - -	-	150
Major to Lieutenant Colonel, - - -	-	200
Lieutenant Colonel to Colonel. - - -	-	400

14th.—The following Table shews the rates of Donation payable by Members who desire to subscribe in a rank higher than their own proportioned to the time that they have been Members in the inferior rank.

	Under two years subscription.	After 2 years.	After 3 years.	After 4 years.	After 5 years.
From Subaltern to Captain - - - -	300	250	200	150	100
— Captain to Major - - - -	450	375	300	225	150
— Major to Lieutenant Colonel - - -	600	500	400	300	200
— Lieutenant Colonel to Colonel - -	1200	1000	800	600	400

Officers wishing to rise two steps at once, to pay the proportionate donations taken from the above table from the first step; and for the second step that in the *first* column, as they intend to pass at once through the intermediate ranks.—Thus a Lieutenant who has subscribed *as a Member* for three years, and who wishes to subscribe as Major has to pay—200*450 650 Rupees.

15th.—As the system of holding place in the classes of the Fund, and of rising therein commensurately with promotion, is abolished in the favor of the system of unlimited subscription in any rank, so henceforward no Member of one class will rise to a higher class *as a matter of course* on his promotion in the line of his profession. He will retain his actual risk and place in the Society or move to a higher, according to his convenience but together with *increased premium and to warrant the increased risk* on the part of the Fund, he must furnish a fresh certificate for every rise of class.

16th.—The stability and welfare of this Fund, and of all associations for similar purposes mainly depending on the undoubted goodness of the lives which it covers, and the risks which it undertakes, it is essential to declare most distinctly, that no applications for *new or increased* risks can be granted when the Individuals are on actual service, or serving in places notoriously unhealthy, or under the influence of Epidemic Diseases. The Directors are therefore compelled to reserve the fullest power of rejection; but they will state their reasons for the exercise of this power on their proceedings, and if desired to the party so rejected.

* See Appendix.

The following corrected forms of Certificate are established for the future in lieu of those formerly in use, and is to be signed by two* Medical Officers:—

I. That no child be admitted who shall be possessed by inheritance, bequest or otherwise, of the sum of sicca rupees 7,000 (seven thousand), or an annuity yielding sicca rupees 420 (four hundred and twenty).

II. That no child possessed of any property less than the above sum shall be admitted unless the amount shall be lodged for its use and benefit in the society's funds.

III. That no child of any subscribers, dying intestate, shall be admitted if no inquiry thereon shall appear to have been (after payment of law expenses, and adequate provision made for the mother's property remaining to the estate, equal to making a provision for said which might have been bequeathed to such a child.

IV. In any case when an officer may die, leaving a natural born child or children and possessed of property not sufficient to preclude the children from the benefits of the institution, and such officer shall not by will make such disposal of provision for these children as his circumstances may enable him, such children shall not be entitled to the benefits of the institution.

V. When where, in the will of any subscriber, part only of his children are provided for, and others either executed by name or otherwise not noticed in his provision, such omission arising manifestly out of the intention of the testator, such omission or omission shall be considered to invalidate the claims of all the children on the institution.

VI. In all cases of capricious or unequal provision, which by favouring the mother pre-emptively to the children or one child in preference to another, shall appear to throw all or any part of a subscriber's family unnecessarily on the fund, shall in like manner, as in the foregoing article, be considered to invalidate the claims of all.

VII. That any provision by will for the widow of a subscriber greater than 3-5ths (three-fifths) of the property to be devised when there shall be only one child, $\frac{1}{2}$ (one-half) where there shall be two, and 1-3d (one-third) where there shall be any greater number of children than two; the remainder being in all cases considered the property of the child, or (in equal portions of the children, shall be considered unequal, agreeably to the two foregoing Articles and invalidate the claims of the children accordingly. Provided always, that a provision for the widow, to the amount of 12,000 sicca rupees (sicca rupees twelve thousand), shall not be held to invalidate the claims of the child or children, although such sum may be more than three-fifths, one-half, or one-third of the property devised.

VIII. That in all cases of children born not in wedlock, any provision for the mother exceeding sicca rupees 30 (sicca rupees thirty), if a native, if Euro, can, sicca rupees 50 (sicca rupees fifty) per month, the principal of such sum in all cases to be secured to the child or children, shall be considered in the same light as the above and invalidate all claims upon the institution.

IX. That subscriptions for the families of deceased subscribers are in all cases to be regarded as available sources of relief to the funds of the society and in that view are to be considered of, and judged by the foregoing rules, in the same manner as any other disposable property; with this only exception, that whereas such subscriptions are for a joint benefit, and lodged in the hands of trustees, it shall not be indispensable that the orphans' portions (estimated as above) be paid as capital sums into the society's funds; but it shall be sufficient that the interest upon them be from time to time duly paid by the said trustees into the society's treasury, so long as the orphans continue an expense to the institution, to be appropriated to their maintenance, whether in Europe or in India.

X. XI. That with a view to obtain the most correct information possible, as well on the foregoing as all other points affecting the interests of those children who may be offered to their guardianship, the general management will and do expect (besides the customary affidavit) the fullest information from executors and others, and an unreserved communication of testamentary and all other documents of which the nature of the specific cases may admit, and do reserve to themselves the entire right conveyed to them by their original constitution, of rejecting orphans tendered without such information and documents; or if, on reference to them there shall appear any evidence of design unnecessarily and intentionally to burthen the fund, by throwing on it those who might and ought to have been otherwise provided for.

XII. That the marriage portion to female orphans shall in no case exceed sicca rupees 2,000 and if the ward claiming her dowry has property to an amount exceeding sicca rupees 3,000, the Society will advance a sum that shall increase the amount to sicca rupees 5000.

All sums received will be immediately carried to the Credit of the Depositor, and held so far at his disposal, as that Bills drawn, not being in excess to the actual Credit, balance of the Account, will be accepted at any time; but for the sake of preserving simplicity in the Accounts, and of allowing the aggregate Stock to be advantageously employed, such Bill will be payable only at two fixed periods, viz. 5th January and 15th July.—Officers who obtain leave in General Orders to go on Sea on Sick Certificate, will however be allowed to draw any part of their Deposits by bills, at ten day's sight.

10. It has been determined by the Directors, that the aggregate amount of deposits shall be employed as a joint Stock, to be vested in Government Securities, or otherwise, as fast as it be accumulated in sufficient Sums. 14. All Letters for the Bank are to be addressed to the Secretary in the prescribed form and Postage of all direct correspondence will be charged to the Individual.

15. It having been determined, that the Office of President shall be annual and that the Directors, not being such Ex-Officio, shall go out annually; the Directors to fill vacancies being chosen by the depositors at large, a list of Gentlemen, willing to undertake the duty, will be published to the Army, 2 months before the Annual Meeting in January; after which the 3 new Directors will be chosen by a Majority of votes; absent from the Presidency, voting either by letter to the Secretary, or by Proxy.

Whereas it has been deemed expedient in order to facilitate the commerce of the Port of Chittagong and especially to provide for the assistance and relief of ships and vessels driven by stress of weather on the Chittagong coast and endeavouring to find shelter in the Port of Chittagong, to place Buoys at the Mouth of the Channel, leading into the said Port, and to appoint a Harbour Master at that place with a suitable Establishment; the following Rules have been sanctioned by His Excellency the Most Noble the Governor General in Council, to be in force from this date.

1. The Commanders of all Ships and Vessels arriving off the coast of Chittagong shall transmit to the Harbour Master, the earliest possible information of their arrival.

2. The Harbour Master shall without delay proceed himself, or send an experienced Pilot on board of every Ship or Vessel arriving off the coast of Chittagong, and requiring Pilotage assistance by Signal or otherwise.

3. The Harbour Master shall render every assistance in his power to the commanders of all ships and vessels arriving off the coast of Chittagong in affording them all information that can be necessary for their guidance, and in bringing their ships and vessels to safe Moorings.

4. The Commander of every Ship or Vessel entering the Chittagong River shall immediately furnish the Harbour Master with the name of such ship or Vessel; of the nation to which she belongs; of the Port from which she last sailed, with all other necessary particulars of information.

5. All ships and vessels entering the Chittagong River, shall be forthwith moored off the custom house, nor shall any ship or vessel be allowed to lay in any other part of the River, unless by the especial permission of the Collector of Customs.

6. Every Ship or Vessel arriving from or proceeding to Sea under the charge of a Pilot, shall pay Pilotage according to her draught of water, agreeable to the following Table of the Rates, viz.

7. Every ship or vessel arriving from, or proceeding to Sea, and not requiring Pilotage assistance, shall pay in compensation for the advantage derived from the Honorable Company's Buoys, a Buoy duty at the rate of 3 annas per Ton, for the first 200 Tons of her burthen, and at the rate of 2 annas per Ton for every Ton of her burthen exceeding that amount.

8. All Dhooneys and square rigged Vessels departing from the River for the purposes of internal Trade, and not bound on Voyages to Sea, shall pay a Buoy duty of 8 annas for every 100 Maunds of their burthen, provided that if a Dhooney exceed 60,000 Maunds in burthen, she shall pay 30 Rupees only, which shall be the highest rate of Buoy duty.

9. Every ship and vessel of 100 Tons burthen and upwards, shall pay 25 Rupees for Mooring and 25 Rupees for Unmooring; but Dhooneys and coasting Vessels shall be exempted from any charge for Mooring and Unmooring, unless they make application to the Harbour Master for such assistance.

10. The Commander of every ship or Vessel about to proceed to Sea from the Chittagong River, shall obtain from the Harbour Master a Certificate, exhibiting the particulars and amount of all Port Charges incurred by such ship or vessel, and testifying that the Rules of the Port have been duly observed, which certificate shall be presented to the collector of customs, and the said amount of Port charges paid into his Office previous to a Port clearance being granted.

11. The Commanders of all Dhooneys and River Craft, about to proceed from the River, for the purpose of internal Trade, shall pay in like manner upon certificates from the Harbour Master, the amount of Buoy duty to the collector of Customs, who shall grant, as their warrant for leaving the River, a char chitty or Pass, under his Seal and Signature.

12. No ship or vessel shall be allowed to proceed to Sea, until her Port clearance has been obtained, and any ship or vessel attempting to evade payment of the established Port charges, and Custom House duties, be liable to the penalty of double Port charges, and confiscation of cargo, as the case may be.

13. Should any Dhooney attempt to depart from the River without paying the Buoy duty, and without having obtained the Collector's Pass, she shall be liable to the payment of double duties, and shall not be allowed to depart until the same be deposited. The Marine Board will determine, upon the Report of the collector of customs, whether the double duties so deposited shall be carried to the credit of Government in the Marine Department, or returned to the person depositing the same.

14. Every Dhooney trading to and from the Port of Chittagong, shall be Registered and Numbered by the Harbour Master, and the number shall be printed on the Stern, in English and Bengalee Characters.

STRAITS OF SINGAPORE.

FORT WILLIAM, DECEMBER 27, 1822.

The Most Noble the Governor General in Council is pleased to direct, that the following Copy of a Notification received from the Government of Prince of Wales Island, be published for general information.

PUBLIC NOTIFICATION.

The Honorable the Governor in Council is pleased to direct, that the following instructions for passing through the North East Entrance into the Straits of Singapore, from the Straits of Dryon, by a Route newly discovered by the Commander and Officers of the Honorable Company's Cruiser Prince of Wales, called "Phillip's Channel" be published for general information.

Directions for passing through the North East Entrance into the straits of Singapore, (from the Straits of Dryon,) or Phillip's Channel.

After clearing "the Middleburgh Shoal," either to the Eastward, or Westward a direct course may be steered for Cap Island, which lays near a Bluff Head Land on the Eastern shore. This Island bears North East by North from the centre of the Middleburgh Shoal and North North East $\frac{1}{2}$ East from the centre of Red Island; on the bearing there is an extensive Reef of Rocks, distant one mile to the North West of the Twins, with a working wind and sanding to the Northward, a Vessel ought not to approach too near it: this Shoal of Coral Rocks, is dry at low water, spring tides; when on it, the North passage Island more South, Sabon Hill West, the Island of Red Island, South and by West, the soundings are from ten to seventeen fathoms round it, steep too. After leaving Red Island, Pulo Duncan is the first Island that will be distinguished from the groupe of Islands forming the Eastern shore. Pulo Duncan are two low woods Islands bearing North East $\frac{1}{2}$ North distant eight miles from Red Island; in passing it to the Westward, it ought not to be approached nearer than one mile, as there are some Rocky Reefs, which surround it; from hence Cap Island will be seen, and bears North distant four miles and a half from Pulo Duncan, the soundings are from twelve to seventeen fathoms; Cap Island or Rock so named from its appearance, is a Rock of perpendicular sides, flat at the top, and about forty feet in height and surrounded by a Reef of Rocks projecting out about three hundred yds. the soundings near it are from ten to fourteen fathoms, decreasing as you near the Island; between it and the "Bluff Head Land," is a Reef of Rocks on which accounts it would not be advisable to get the Eastward of Cap Island.

When abreast of Cap Island, Long and Round Island, and the Rabbit and Coney may be distinctly seen, a direct course may be steered to pass in Mid Channel, between Round Island and Eastern Shore, which is three and a half miles across, the soundings are from seventeen to twenty two fathoms, Long and Round Islands ought not to be approached nearer than three quarters of a mile, as there are Rocky Reefs to the South of them. In working and standing to the Westward of the South end of Round Island go no farther to the Westward than to bring the North to the West end of Long Island, or with the centre of the Rabbit, as there are four Rocky Reefs to the South West of Red Island; when on the South East end of the Southern Reef in a boat, Red Island will be seen, with the Rabbit, the centre of Round Island East $\frac{1}{2}$ South, the soundings are irregular near these Shoals and Long and Round Islands.

After passing Long and Round Islands, Singapore can be distinctly seen and a course ought to be steered for St. John's to clear the Buffalo Rock and a patch of dry Rocks to the South West of the Buffalo.

A
LIST
OF THE
BRITISH & FOREIGN
INHABITANTS OF CALCUTTA
AND THE
Upper Provinces,
CORRECTED TO
JUNE 30,
1824.

The generally acknowledged want of a full and correct List of British Inhabitants has been so much felt and so often complained of that the Compilers of this Work have taken very considerable pains to make it meet the expectations which have been formed of it— and although they are satisfied it is as complete as circumstances will permit, they are fully sensible that some errors may still exist: they therefore solicit all who feel an interest in its accuracy, and may be able to give any additions or corrections, to favor the Publishers with communications on the subject and thereby enable them to make the necessary alterations; and as the whole List is kept standing in Type and published three times in the course of the Year they hope, in time, to make it as perfect as the state of society in this Country permits or requires.

To enable the Sheriff of Calcutta, The Coroner and others concerned, to distinguish who are liable to serve on Juries—the following distinctive marks have been attached to the names of persons who are not liable to be summoned on that duty, viz.

** Born in India.*

† Foreigners.

Should these marks be omitted to any name or improperly affixed to those who are strictly speaking "British Subjects" and consequently liable to serve on juries—the necessary corrections will be immediately made on the Publishers being furnished with the means,—and the communication thankfully acknowledged.

Individuals whose occupations, dates of arrival, or residences are incorrectly stated, or wholly omitted for want of information are requested to communicate on the subject with Messrs Samuel Smith, and Co. at the Hurkaru Library, who will be happy to make the necessary additions or alterations, or attend to any reasonable suggestions, which may have for their object, the improvement of this List.

REGULATIONS.

1. No letter or parcel, (such as are imported by sea, and native letters excepted,) will be received at any post office, unless accompanied by the postage which they bear, in sicca rupees.

2. No package exceeding 12 sicca rupees in weight, or 15 by 12 inches in size, and 12 inches in depth, will be received at the general post office, unless paid for accordingly.

3. No money, jewels, watches, trinkets, or valuables of any description, will be received for transmission, either by the letter dawk or bangy. The rule does not extend to bank notes, which the person sending is recommended to cut in halves, and forward the part separately by successive dawks.

4. No persons not belonging to the department, can be admitted into the interior of the post office, or be allowed of themselves to examine the records. All complaints, or applications for information must be made to the post master general in writing.

5. Persons addressing the post master general respecting any delay in the delivery of their letters, are requested to transmit, at the same time, the envelopes of such letters, bearing the post office stamp, which specifies the date on which the letters were issued for delivery.

6. No person can be permitted to take the letters from the peons, except in the regular course of delivery; and it is requested that the peons may experience as little detraction at the doors of houses as possible.

7. Persons receiving letters are required to pay the amount of postage marked on them; and if they have occasion to complain of any surcharge, they must state their complaint officially to the post master general. Should his decision not prove satisfactory, they are at liberty to appeal to the governor general in council.

8. All letters refused by the party to whom they are addressed, and all ship letters transmitted, from subordinate stations to the general post office on which the ship postage has not been paid, shall be returned to the office from whence they were despatched and the writer, or the person who brought them to the office, shall be required to pay the postages both to and from the place of address. If the writer cannot be discovered, the letters shall be entered in a list, which shall be exposed by the post master in the most public part of his cutchery, and a copy of which shall be transmitted from time to time to the post master general, who shall advertise the letters in the Government Gazette, with notice that they will be delivered to the writers on payment of the postage due on them.

9. Should the writer of a returned letter refuse to pay the postage due on it, the post master is authorized to detain all future letters to such person's address, until the demand in question shall be liquidated. The same rule is applicable to all other cases of refusal to pay postage.

10. Any person opening a letter or envelope, shall be bound to pay the postage of the same, whatever may be the contents.

11. Persons exempted from the payment of postage by their official situations, having occasion to write to non-exempted persons on the private business of the letter, shall write on the envelope, 'bearing postage,' in which case the amount is to be collected from the receiver. Letters from out stations where no person duly qualified to collect the postage is established, will also be received 'bearing postage.'

12. The post office is not answerable for the loss of property contained in any letter or parcel, which may be transmitted by dawk

or bangy. For the greater security of such property, however, the clerks, &c. are strictly prohibited from delivering back to any person, or under any pretence, letters or parcels, which may once have been lodged in their offices.

13. A treasury podar is appointed to attend daily at an office contiguous to the entrance of the general post office, for the purpose of exchanging rupees into pice, at the established rate of 6½ per rupees, for the accommodation of persons delivering letter into the office, who may not have brought the exact sum assessed on them.

14. The general post office is open for the *receipt and delivery* of letters and for replying to inquiries from 10 a. m. to 1 p. m. every day, Sundays excepted; and for the *receipt* of letters only, from 3 to 6 p. m. No newspapers will be received after 5 p. m.

15. Travellers may be furnished with dawk bearers, on application at the different post offices, where tables, exhibiting the charge and estimated distances to all the principal stations, are constantly exposed for public inspection.

INLAND POSTAGE.

1. All letters not exceeding 1 sa. wt. are to be charged as single letters according to the rates specified in the annexed table of letter of postage; those exceeding 1 but not exceeding 2 sa. wt. twice the amount; and so on in proportion as far as 25 sa. wt. above which no letter or parcel will be received for transmission by dawk.

2. Registers pamphlets, vouchers, accounts, parcels of law papers, or newspapers from Europe, subscribed, and attested by the signature of the person sending them as such, are received for transmission by dawk, at the rate of 3 sicca wt. as one, if not exceeding in all 25 sicca wt. i. e. from 1 to 3 sicca wt. as a single letter, from 3 to 6 as double, from 6 to 7 as treble, and so on to 25. Should such parcel however be found to contain letters, the whole will be charged according to the letter rates of postage.

3. All letters or parcels covering Company's paper, ought to be registered at the post office.

4. The postage of letters to Madras, and places under that establishment, is levied only to Ganjam.

5. Natives have the option of paying only half postage on delivery of their letters at the different post offices, the other half remaining to be collected from the persons to whom they are addressed. This rule does not apply, however, to letters addressed by natives to officers of government, or to places beyond Ganjam:—if to Madras, they pay to Ganjam only and full postage, if to Hyderabad, Bombay, and Ceylon.

POSTAGE ON SHIP LETTERS

Ship postage, according to the following rates, is charged on all ship letters whatever, whether imported or exported, letters to and from the members of government and the chief justice only excepted: viz

One sicca weight,	2 annas,
From 1 to 2 sicca weight,	4 ———
— 2 — 4 ———,	8 ———
— 4 — 8 ———,	1 rupee.
— 8 — 16 ———,	2 rupee.
— 16 — 25 ———,	3 ———

Where the weight exceeds 25 sicca weight, 2 annas additional are charged for each additional sicca weight.

LETTERS FOR EXPORTATION.

1. When letters for exportation are delivered into any of the post offices at the upper stations, they must be superscribed "Europe" or "ship letters;" and the inland postage to Calcutta, as well as the ship postage, must accompany them.

2. In like manner, letters for transmission by sea, via Madras, Bombay, or any other port of India must be accompanied by the full inland postage to such port, as well as the ship postage.

3. Letters are received for exportation by sea, to any part of the world frequented by ships from India, and all such letters shall be registered at the general post office, and forwarded by the ship which may be designated in the address; or if such ship shall have sailed, they shall be returned, bearing the inland return postage. Letters not designated for any particular ship, shall be forwarded by the first ship that may be despatched.

4. Packets containing newspapers, pamphlets, accounts, law papers, &c. if left open at each end, or bearing a superscription specifying their contents, with the name of the person who forwards them are received for transmission by sea, at the rate of one third of the letter postage. If found to contain any letter or writing, however the full postage will be charged.

LETTERS IMPORTED

1. When letters imported by sea, are transmitted to any of the out stations, the persons to whom they are addressed, must pay the inland as well as the ship postage.

2. The inland postage, however, collected on ship letters, forwarded by mail to the remotest parts of the country, is limited to the amount of the ordinary postage levied on the letters to Cawnpore provided the weight of such letters does not exceed 8 sicca weight. The following rates of postage to Cawnpore, exhibit, therefore, the highest rates of ship postage, assessed, on the letters of the description, to whatever station they may be transmitted; viz.

4. Ship letters, received by the mails from the other presidencies, are subject to the payment of only half the usual ship postage, with the whole inland postage.

5. No ship letters or parcels however, addressed to persons residing under this presidency, will be forwarded to them by dawk from the post offices at any of the other presidencies without special instruc-

tions to that effect. Any such letters, &c. which may be received at the post offices in question, will be kept for the first safe conveyance to Calcutta by sea.

7. To entitle the party however, to whom any such parcel may be addressed, to the benefit of the foregoing Regulation, it is necessary, that he should on the requisition of the post master, subscribe a written declaration signifying that the parcel in question contains only papers of the above description; and he must further consent if required, to the parcel being opened at the post office, otherwise, it will be charged according to its weight as a ship letter.

8. All ship parcels, containing newspapers, &c. addressed to persons residing at the upper stations, are transmitted by bangey, at the usual rate of bangey postage, in addition to such ship postage as may be due on them. Where instructions are given to that effect, however, such parcels may be transmitted by dawkh, the party defraying the full dawkh charges on the same.

9. A bounty of one anna is paid by government to masters of ships and others bringing them from sea, for all ship letters delivered in Calcutta, which they may bring to the post office.

BANGHEY POSTAGE.

1. All parcels not containing letters or articles of value, and also letters exceeding 21 sa. wt. are received at the different post offices for transmission by bangey. On such parcels, &c. as do not weigh more than 50 sa. wt. single postage is charged, according to the rates specified in Table of Inland Rates and Bangey Postage; on such as exceed 50, but do not exceed 100 sa. wt. double postage is levied, and so on in proportion.

2. Letters or parcels exceeding 21 sa. wt. addressed to stations to which no bangey is dispatched, will be forwarded by dawkh, at the bangey rates of postage.

3. Any person attempting to forward a letter under the prescribed weight by the bangey, in the shape of a parcel or package becomes liable to the full postage chargeable on a letter of 21 sa. wt. And when any parcel is delivered for transmission by bangey, the post master is authorized to call on the party from whom it comes, for a written declaration, signifying that such parcel is *bona fide* of that description, to which the bangey conveyance is appropriated. The above rule of course is not applicable to the case of ship-letters, exceeding 8 sa. wt.

6. On the application of individuals, entire bangles will be furnished from Calcutta, to any subordinate station, or from thence to Calcutta, at half the rate, which would be charged for the same, if sent in separate parcels.

7. It is recommended, that all parcels intended for transmission by bangle, be at all times carefully packed in strong cloth, and during the rainy season, in wax cloth.

EXEMPTION FROM POSTAGE.

1. Letters on the public service are transmitted free of postage. And for this purpose, the public officers mentioned in the subjoined list, are allowed the privilege of franking such letters.

2. All letters on service, must bear on the envelope the official designation of the person to whom they are addressed, and also the name and designation of the writer, in his own hand writing. It is also necessary to entitle them to exemption from postage, that the word '*service*' should be superscribed on all such letters; but as the commanding officer in the field, the secretaries to government in the several departments, the secretaries to the governor general and commander in chief, the post-master-general, the resident at foreign courts, and the agents to the Governor-General may have occasion to correspond with individuals on public business though not in an official form; private letters on public business from those officers shall be exempted from postage, on their subscribing on the envelope their name and official designation, with the addition of the word '*private*.'

SEPTEMBER 13, 1814.

As the Regulations of this Office regarding Overland Letters, published under date the 24th May, 1813, were framed at a time when their transmission could not be effected by a less circuitous route than that of Smyrna and Malta,—and the late happy events in Europe have apparently removed the obstacles which before prevented a more direct correspondence from being satisfactorily maintained between the distant parts of that Continent and Great Britain with India;—The Post Master General considers it may be useful to the Public to intimate that he is not aware of any objection to the dispatch of Letters, under the principal provisions of the above-mentioned Regulations, by the way of Constantinople and Vienna. And that for this purpose, it appears to him to be only necessary, that such persons with their Overland Letters from London, or any place in England, to be so forwarded, should clearly write immediately over the addresses on them, these words, namely:—Via Constantinople and Vienna.

Letters with this superscription will be dispatched accordingly:—and it will be understood here, that those which do not bear it are intended to be sent, as heretofore, by the routes of Smyrna and Malta.

J. HALL, P. M. G.

JUNE 1, 1815.

Notice is hereby given, that it has been determined to limit the number of Overland Packets from India to England to three in each year, and to fix the undermentioned periods for their dispatch from Bombay:—

First. That all officers empowered to Frank, in the Civil Department, stationed in the interior, shall forward, on the last day of every month, to the Deputy Post Masters of the Stations whence their official letters are dispatched, a list of all letters transmitted by them, during the month, on the public service, specifying the Officers to whom addressed, the places of their destination, and dates of dispatch to the Post Office, with the following attestation upon honor subjoined to it, viz.

I do hereby certify, that to the best of my knowledge and belief, the above is a correct list of all public letters dispatched under my Signature during the month of ———, and that they were *solely and exclusively* on the public service.

Second. That the Deputy Post Masters shall transmit, with their accounts of the same month, to the Post Master General, all lists so received with a declaration superscribed on each, signed by himself, that the list has been compared with the entries on the corresponding dates and found correct; or in the event of a want of correspondence with any entry the particulars of it shall be noted at the foot of the declaration in order that the Post Master General may, if he thinks proper, require an explanation of the cause of the difference.

Thirdly. It shall in like manner, be the duty of every Officer entitled to frank Service letters at the Presidency, to forward to the Post Master General, a list similarly attested of the letters dispatched from his office during the month; and the Post Master General shall cause the comparison above described, with the entries to be made; and should any difference be discovered, that Officer shall be empowered to require an explanation of it from the Officer attesting the list.

Fourthly. All public Officers in the interior, shall furnish through the same channel, at the same periods, and in a corresponding form of attestation, lists also of the letters severally received by them, addressing on the public service which the Deputy Post Master shall transmit to the superior Officer, with a declaration of comparison &c. as prescribed in the Second Articles of those rules.

The heads of Offices at the Presidency shall likewise transmit similar lists to the Post Master General, to which the rules contained in the Third Article, shall be equally applicable.

CALCUTTA GENERAL POST OFFICE,—JULY 25, 1822.

Notice is hereby given, that as packages despatched by Dawk Banghee in the Rainy Season, are occasionally liable to injury, notwithstanding every practicable precaution is used for their security; this Department cannot be responsible for any accidents that may occur.

This notice is applicable to Stamped Papers sent from the Stamp Office, although in tin boxes with the lids soldered down.

COLIN SHAKESPEAR,

Post Master General.

CALCUTTA GENERAL POST OFFICE,—August 17, 1821.

PUBLIC NOTIFICATION.

It having been brought to the notice of Government, by the representation of the Post Master General, through the Board of Revenue, that much inconvenience arises from the prevailing practices of Public Officers inadvertently transmitting to Post Offices Letter Packets and parcels, greatly exceeding the prescribed Weight (of 25 Sa. Wt) which are of consequence made over for transmission by Banghee thereby incurring delay and probable injury, that might otherwise in a great measure be avoided; the Governor General in Council is pleased to direct as follows:

1st. That the strictest attention be paid in every Department, throughout the Service, to the making up of Parcels, not to exceed the prescribed limitation of Weight.

2dly. That when two or more Parcels of such description are delivered at a Post Office, containing Papers connected one with the other, it will be at the option of the Deputy Post Master to forward them to the Presidency, either by the same Mail if circumstances permit or separately by two or more successive Mails, in order that Mails may not be surcharged and their contents rendered insecure, especially in the Rainy Season.

3dly. That as Paper Parcels are not always made up in the most compact form they are susceptible of and altho' there is often an unnecessary expenditure of the Hon'ble Company's Stationery within; the contingent envelope of Letters, and Accounts of importance, is frequently of flimsy Country paper, of the worst kind, forming an inadequate protection to the documents they cover.—All Public Authorities are therefore hereby enjoined to require of their Executive Officer unremitting attention to these defects, and to the observance of such precautions, as will prevent, for the future, the Dawks being unnecessarily loaded, to the interruption of their progress, and to the increase of very serious inconvenience, as well as unmerited responsibility to the Post Office Department.

By Command of His Excellence the Most Noble the Governor General in Council.

COLIN SHAKESPEAR,

Post Master General.

CALCUTTA GENERAL POST OFFICE.—MAY 6, 1822.

Complaints having been of late preferred to the Post Master General by Individuals, as to the hardship of being subjected to Postage on "Ship Letters" forwarded by Dawk from the Post Offices of Madras and Bombay, even when no immediate opportunity offered of transmitting such Letters by a Sea conveyance.

2dly. All Letters exceeding the above prescribed limitation of weight, shall be forwarded to their destination by the first eligible Sea conveyance that may offer.

3dly. With the view however to the accommodation of the Public,—all Persons desiring to have their "Ship Letters" forwarded by the Mails, which may exceed the weight of One Sicca Rupee, and being within the prescribed limitation of 25 Sa. Wt. are requested to signify their wishes in writing to the Post Master General, and to rely on their receiving immediate attention.

The baggage of persons abovementioned shall be accompanied by a letter, addressed to the Sub-Export Ware-house Keeper, specifying the number and nature of the Packages, the dimensions thereof, and the rank of the owners, and a List, to be accompanied by a certificate from the Custom Master that the duties thereon have been settled, shall be furnished.

It shall be the duty of the Sub-Export Ware-house Keeper or other Officers, of the Export Ware-house, upon the receipt of the Baggage into the Export Ware-house, to cause the square contents of each Package to be ascertained and to Register the same, and also to grant a receipt of their number to the proprietors of them.

The Sub-Export Ware-house Keeper will also adopt immediate measures of forwarding them to the ships on which they are to be laden, at the risk however of the proprietor.

In the event of persons desiring to ship their own Baggage, they will on application to the Sub-Export Ware-house Keeper, on the Commander of the ship they may be about to proceed on, be furnished with printed forms of application, which they are required to fill up as directed therein and forwarded to the Sub-Export Ware-house Keeper, who will cause the solid contents of the Baggage therein described to be ascertained and grant an order to the Commander of the ship on which they may have engaged their passage for the reception of the same on board.

The Public are hereby informed that the Commanders of the Honorable Company's ships are not only positively prohibited from receiving on board of their ships any Baggage, except under an order from the Sub-Export Ware-house Keeper or any Officer of the Ware-house, but held also responsible for the consequence of taking any Baggage in excess of the authorized quantity, and made to pay freight for excess so taken at such rate as the Honorable Court of Directors may deem proper.

No Baggage in excess of the allowance above stated can be permitted to be shipped without previous reference to the Board of Trade, who will transmit such application for the consideration of the Governor General in Council.

Bengal Provident Society.

DIRECTORS.

John Palmer, David Clark, Rod. Robertson, Henry Mathew.

The chief object in view of the original Supporters of this Institution being to afford an opportunity to parents and Guardians to secure a provision to Children on their advancing to the age of maturity by means of a moderate deposit, the period of 14 years was decided on for the duration of each Class as most eligible for such a purpose, and considered especially advantageous for the improvement of property by the powerful operation of interest.

This institution is perpetual, as a new Class, will commence on the 1st of January every year, and a dividend will become due to the surviving Members of the respective Classes on the expiration of the 14th year from that in which they respectively commenced. The dividends will be very handsome, and fluctuate in a

greater or less degree with the number of losses which may occur in each Class but in all cases each Share will yield sufficient to satisfy moderate expectations, and the Society will even meet the views of those who desire larger eventual incomes,—the Regulations admitting of an increase of 10 Shares on each Life.

Shares are Sa. Rs. 200 each for Infants under 6 months, and proportionally higher (not exceeding Sa. Rs. 350.) to the age of 27 years, when the rates of premium gradually decrease with increase of age to Sa. Rs. 200. The Subscriptions are deposited at the time of entry, and as no subsequent collections are required thereon, the Subscribers are neither subject to penalty, nor forfeiture of their subscription; but it is highly beneficial to continue the payments in every successive class as at the end of first 14 years a series of successive dividends will be established, which may be continued for life.

The Tenth Class opens on the 1st January, 1825, and Certificates will be granted until the 31st December next,—Intending Subscribers are therefore invited to profit by early applications for admission, to the Office of Messrs. PALMER AND CO. Treasurers of the Society, to the Undersigned who will supply printed Regulation, of the Society, and attend punctually to all orders.

PART 5.

Coins, Weights, Measures, Exchange, &c.

The following Remarks from Thornton's East Indian Calculator, an invaluable Work, from which most of the following Tables are extracted, will be the best preface we can offer to this part of our Appendix.

"The account subjoined of Money, Weights, and Measures is almost entirely new. This part of the work cannot be expected to possess equal pretensions to accuracy with the other. The impossibility of attaining that object, under existing circumstances, prevents the Editor from saying more than that it is more correct than preceding accounts, and as perfect as it could be made by a diligent examination of every authentic source of information upon the subject. He has derived great assistance (with permission of the Author) from the *Universal Cambist* of Dr. KELLY, undoubtedly the best and safest authority. The communication he has had with that gentleman, convinces him that implicit reliance cannot be placed upon existing accounts of the Weights and Measures of India; a defect which can only be remedied by the plan adopted, under the authority of Government, with respect to those of other parts of the world, the true proportions of which have been accurately determined by an examination of specimens sent from abroad of the Weights and Measures actually used, accompanied with explanations from the proper authorities on the spot. Accordingly, the Court of Directors of the East India Company have issued orders to their servants in India, to transmit to England verified standards of the Weights and Measures in use throughout their territories, which, when received, are forwarded, for this important and desirable object, to Dr. KELLY whose talent and qualifications render him the fittest person to be entrusted with the superintendence of this as of the former operation.

"It is obvious that considerable time must elapse before this laborious undertaking can be accomplished. The multiplicity of the different measures of quantity used throughout India, and the confusion which prevails, especially in the interior, with respect to their standard, relative proportions, &c. have been frequently spoken of by travellers, and must greatly embarrass the undertaking. Dr. HEYNE states that, in Mysore, almost every Coshah, or chief town of the district, has Weights and Measures differing widely from those in its neighbourhood. The scales commonly used, he says, are likewise extremely rude and inaccurate, being merely flat baskets suspended from a balanced pole, which is tied to a noose.

"It is remarkable that an attention to this subject is distinctly enjoined by the ancient legislator of the Hindoos:—"Let all weights and measures," says MEYER, "be well ascertained by the King, and once in six months let him re-examine them."—*Institutes of Hindoo Law* Chap. VIII. tit. 403."

Omitting fractions, 335 Bengal Sicca Rupees are the equivalent exchange of 350 Madras Siccas, at which the Public Securities are transferable; and consequently, 350 Madras Siccas (or 100 Star Pagodas, at 8s. each) being the equivalent of £40, 335 Bengal Siccas should give the same sum. But the interest Bills payable in London, allow £40 for 320 Bengal Siccas only, at 2s. 6d. each, (the Company's rate of Exchange), which is in favour of the receiver of the Bills 37½ Bengal Siccas, or £4. 13s. 9d. sterling, per £100, against the Company.

Again —335 Bengal Siccas, at 2s. 6d. each, give £41. 17s. 6d., and 350 Madras Siccas, at 2s. 9d. each, (the Company's rate of Ex-

change), give £39. 7s. 6d. : the former sum being £1. 17s. 6d. *above*, and the latter 12s. 6d. *below*, the nominal equivalent of each, namely £40.

Again :—The gold of the Guinea and Sovereign is of the same standard as that of the Madras Gold Rupee, *viz.* 22 carats fine ; and the latter, weighing 180 grains of that gold, exchanges for 15 Silver Rupees of the same weight, which gives 12 grains of gold to each Rupee of Silver, equivalent to 1 grain per Silver Fanam of the late coinage, and $1\frac{1}{2}$ per Silver Anna of the new coinage of that Presidency. Now the Sovereign, weighing clear $\frac{3}{4}$ of the Madras Gold Rupee, which should fetch, according to the foregoing estimate, a fraction above 80 Rupees, fetches only $8\frac{1}{2}$ Rupees, according to the Company's valuation of 875 Madras Rupees per £100 ; a difference against the receiver upon this footing of not less than 132 Rupees upon every £100.

TIME TABLE.

No. 1.—Shews the number of days from any given day in one month to the same day of any other month. It must be observed that in Leap Year, if the end of the month of February be included in the time, one day must be added. If it be desired to find the number of days from a given day in one month to a different day in and then, the difference between the dates must be added to, or subtracted from (as the case may be) the amount. For Example :—To find the number of days between the 5th of January and 12th of November :—

From 5th of January to 5th of November - - 304 Days.

From 5th to 12th of November - - - - - 7

If it be Leap Year, add - - - - 1

Answer - - - 312

No. 2.—Shews the decimal parts for each and all the days in the twelfth part of a year, consisting of 365 $\frac{1}{4}$ days.

COINS, WEIGHTS, &c.

CALCUTTA IN BENGAL.

COINS.—Accounts are kept here in imaginary money, called Rupees, either Current or Sicca, with their subdivisions, Annas and Pice; 12 Pice make 1 Anna; 16 Annas 1 Rupee; and 16 Rupees 1 Gold Mohur. To this currency must all the real specie be converted, before any sum can be regularly entered into a merchant's book. The Company keep their accounts in Sicca Rupees, which bear a Batta of 16 per Cent. against the Current.

The Coins current are Gold Mohurs, with their subdivisions, halves and quarters; Sicca Rupees, halves and quarters; Annas, Pice, and half Pice. The two last are of copper.

In 1766 the Bengal Gold Mohur weighed 179.66 grains, was of the fineness of 20 Carats, and passed for 14 silver Rupees. The gold was here overvalued, for it passed in proportion to silver, as 169 45 to 1. In 1769 it was ordered that the Bengal Gold Mohur should weigh 190.773 grains, and in this coinage gold was valued to silver nearly as 118 to 1; and, by Regulation 35, Anno 1793, it was directed that the nineteen Sun Gold Mohur should weigh 190.894 grains, and contain $\frac{3}{4}$ of a grain in 100 of alloy, and that it should pass for 16 nineteen Sun Sicca Rupees. Here gold is valued in proportion to silver as 14 85 to 1.

Gold Mohurs are coined only at the mint of Calcutta; at the subordinate mints of Benares and Furruckabad, silver alone is coined. The fineness of both metals is the same as English standard gold, 1-1 $\frac{1}{2}$. The following statement shews the present weight, fineness, and sterling value of the Coins, reckoning the value of gold at £3. 17s. 10 $\frac{1}{2}$ d. per standard ounce; and silver at 5s. 2d.

	Grains pure	Grains alloy	Grains gross weight	Value. £ s. d.
Gold Mohur.....	187 651	17 059	204 710	1 13 25.2-25
Sicca Rupee	175 423	15 993	191 416	0 2 04.6-25
Furruckabad Rupee ..	165 215	17 019	182 234	0 1 113.9-25

By Regulation, 1819, the coinage of the Benares Rupee is discontinued; and the Furruckabad Rupee made the legal coinage of Benares.

It will be observed that the alloy has been increased; a regulation which took place in 1819, whereby much expence is spared in refining. The charge for coining and for refining is the same at all the mints, for silver; namely, 2 per cent, if the bullion be of the standard fineness; but where it differs, a proportion charge of from $\frac{1}{4}$ to $\frac{1}{2}$ per cent. is made for refining.

See also the Assay Report, 1821—BOMBAY.

The standard of the Bengal money has ever been silver. Gold is occasionally coined, but the great bulk of the currency is silver. The most common silver coin is the Rupee of 1 Sicca, or 10 Massa weight.

These Rupees were formerly called Sicca Rupees only during the year after their coining, when the batta they bore on Current Rupees was 16 per cent; the second this was reduced to 13, and the third and following years the batta was 11 per cent: they were then called Sonant or Sunat Rupees. But with a view to abolish this distinction, all the Rupees coined of late years by the East India Company, have been dated the nineteenth Sun, that is the 19th year of the Mogul's reign; and by Regulation 35, Anno 1793, it was ordered that the nineteen Sun Sicca Rupees should be received as the legal coin of Bengal, Bahar, and Orizs.

There are various other kinds of Rupees to be met with in Bengal, whose fineness and weight are different, though their denominations are the same. From this, and from the natives frequently punching holes in the Rupees, and filling up the vacancy with base metal, and their wilfully diminishing the weight of the coin after coming from the mint, the currencies of Rupees from the different provinces are of different values. This defect has introduced a custom of employing shroffs or money changers, whose business is to set a value upon these different currencies, according to every circumstance, either in their favour, or their prejudice. When a sum of Rupees is brought to one of these shroffs, he examines them piece by piece, and arranges them according to their fineness; then by their weight; he then allows for the different legal battas upon Siccas and Sonnas; and this done, he values in gross by the Rupees current what the whole are worth; so that the Rupee current is the only thing fixed, by which coin is valued.

A Current Rupee is reckoned at 2s. and a Sicca Rupee of account commonly at 2s. 6d.

A Lac of Rupees is 100,000; and a Crore, 100 Lacs, or 100,00,000 Rupees; and in accounts, sums are distinguished into Crores, Lacs, and single Rupees, by marks or divisions, as in the foregoing examples.

Cowries, small white glossy shells, are made use of for small payments in the Bazar, and are generally thus reckoned:

4 Cowries	} equal to {	1 Gunda
20 Gundas		1 Pua
4 Pua ..		1 Anna
4 Annas		1 Cabun, which is about $\frac{1}{4}$ of a Rupee

But they rise and fall according to the demand there is for them, and the quantity in the Market.

MADRAS.

COINS.—According to the old monetary system, accounts were kept at this Presidency in Star Pagodas, Fanams, and Cash. The Pagoda weighed 52.56 grains troy, and was commonly valued at 8s. It was divided into 45 Fanams, each Fanam containing 80 Cash. This was the proportion observed by Government, the Bank, and Agency Houses; but in the shops and bazar exchange, the number of Fanams to the Pagoda fluctuated according to circumstances, from 42 to 46 Fanams.

The Gold Coins were the single and double Pagodas; the Silver Coins were the single, double, and 5 Fanam pieces; the one-eighth, quarter, half, 1 and 2 Rupees; and quarter and half Pagodas; the Copper Coins consisted of 1, 5, 10, 20, and 40 Cash pieces.

According to the new currency, fixed by proclamation, dated *Fort St. George*, 7th January, 1818, the Silver Rupee constitutes the standard coin of this Presidency. The public accounts are accordingly converted from the Star Pagoda (the coinage of which is discontinued) into the Madras Rupee, at the exchange of 350 Rupees per 100 Star Pagodas. All Government transactions are now concluded in Rupees.

Remarks on the Coins of Bombay.

SILVER.—The old Bombay Rupee is the same as was coined at Surat under the Mogul Government. It weighed 178.311 grains, and contained 1.24 per Cent. of alloy. By an ancient agreement with the Nabob of Surat, the Rupee of both Governments was to circulate through both at an equal value; while they mutually pledged themselves to keep up the Coin to its exact standard of weight and fineness. The Nabob, however, did not keep to this agreement: for his Rupees were found soon afterwards to contain, instead of 1.24 per Cent. of alloy, no less than 10 12, and even 15 per Cent. The consequence of this was, that all the Bombay Rupees were carried to Surat to be re-coined. This mint was entirely stopped in its silver coinage for more than twenty years, and the circulation of silver was occupied by the Surat Rupee.

In this situation of things the merchants could not afford to coin their bullion here, and therefore Bombay was long without a silver coinage of its own; when Government in 1800 ordered the Surat Rupee to be struck in this mint, and since that time the Rupee has been kept at an equal value in both mints. In both the Silver Rupee weighs 179 grains, and contains 7.97 per Cent. of alloy.

GOLD.—In the year 1774 the Gold Mohur was made of the same weight as the Silver Rupee. It was ordered to be of the fineness of a Venetian, and to pass for 15 Silver Rupees. In this coinage, therefore, 14.9 grains of silver represented one grain of gold; for such is the proportion between the quantity of gold in this Gold Mohur, and the silver in 15 old Bombay Rupees. When the Surat silver currency had occupied the circulation, this proportion between gold and silver was quite destroyed; so that gold coined according to the regulation of 1774, was now exchanged for no more than thirteen times its weight in silver, and often for much less.

In order to remedy this, and to bring back the Coins of gold and silver to nearly their ancient proportions, and their relative value in the market, it was ordered in 1800, that the Gold Mohur should be of the weight as the Silver Rupee, that it should contain the same quantity of alloy, and that it should pass for 15 Rupees.

WEIGHTS.—The English weights being in common use here, and at all the other Presidencies, the following account of their relative proportions may be found useful.

The two principal weights established in Great Britain, are the avoirdupois and troy weight; the last is again divided into diamond and money weights; the grain is understood to be a grain of wheat, gathered in the middle of the ear.

Diamond Weights.

Are carats, each carat being divided into 4 grains or 64 parts. The ounce troy contains 150 such carats ; therefore this carat is $3\frac{1}{2}$ grains troy ; hence 5 diamond grains are equal to 4 gold grains.

The other weights in use at this Presidency are the under-mentioned :—

Silver Weights.

2½ goonzes		1 vall

Silver is commonly sold from 96 to 100 single pice per tola ; but computations in money are made by saddea, or double pice. The tola equals in weight the silver rupee.

The Bombay great weights are Pice, Seers, Maunds, and Candies, thus divided :—

Although the above represent the commonly received standard of gross weights at Bombay, yet there are a great number of commodities which are not governed by them, but sold by the Surat Maund, which, notwithstanding it is said to contain only 40 seers, is sometimes 41, 42, 43, through all the intermediate gradations up to 46 ; nor is the Candy uniformly confined to 20 Maunds.

WEIGHTS.—The Chinese Pecul is used in the Pazar. The Bahar weighs 560 lbs avoirdupois. The Tale is 26 dwts. 12 grs troy.

MEASURES.—The Coyang dry measure contains 800 Bamboos, each Bamboo equal to an English wine gallon.

CHINA AND CANTON.

COINS.—Accounts are kept in Tales, Mace, Candarines, and Cash, thus divided:—10 Cash, 1 Candarine; 10 Candarines, 1 Mace; 10 Mace, 1 Tale.

There is but one kind of money made in China, which is called Petty, or Cash; it is of a base metal, cast, not coined, and very brittle; it is round, about the size of an English farthing, marked on one side with Chinese characters, rather raised at the edges, with a square hole in the middle. They are usually strung a hundred in a string; but they rise and fall according to the quantity in the market, varying from 750 to 1000 Cash for a Tale. Their chief use is in making small payments amongst the lower classes of the people.

Spanish dollars are the principal coin current, but other silver coins are occasionally met with. For small change they cut the coins into pieces, and weigh them for which purpose every merchant carries scales and weights with him, put up in small portable wooden cases; they are made somewhat after the plan of the English steelyards, and are called by the Chinese a dotchin. For the purpose of cutting the silver, they have a pair of scissors; and some are so dexterous, that they will cut the quantity required, without having occasion to cut a second time. All dollars which pass through the Hong Merchants' hands bear their stamp, or chop; so that by frequent exchanges, the dollars become soon mutilated, and are then cut up for small change, or melted into ingots. All duties are paid in sycee or pure silver.

In the East India Company's accounts the Tale is reckoned at 6s 8d. sterling; but its intrinsic value is according to the price paid for silver in London.

WEIGHTS.—The great weights are the Pecul, Catty, and Tale, thus divided:—

	lbs.	oz.	dis
16 Tales..	}	equal to	1 Catty.. 1 5 5 .333
100 Catties..			1 Pecul.. 133 5 5 .333

} avoirdupois.

All goods are weighed at China; likewise provision, as milk, fowls, hogs, &c.

In delivering a cargo, English weights and scales are used, and afterwards turned into China Peculs and Catties. If the weights and scales are brought from Canton, care should be taken that the beam is not longer on one side than the other; some of them have holes or notches at each end of the beam, by which they can, by hanging the scales in one or other, diminish or increase the weight considerably.

The weights are in generally light, particularly those they sell by, as have been found by weighing tutenague, raw silk, &c. Many of their dotchins are loaded in the press. Above all, it is particularly necessary to pay attention to the weighing man, who is very apt to jerk the scale down, or pull it to him before he cries the weight, and that often erroneous. If a person delivering a cargo, will take the trouble of putting in the weights himself, and balancing the scales, the benefit that will be derived by the cargo turning out well, will be an ample compensation for his trouble.

Gold and silver are also weighed by the Tale and Catty; 100 Tales are reckoned to weigh 120 oz. 16. dwts. troy, which make the tale equal to 579.84 grains.

The foregoing Weights are sometimes otherwise denominated by the natives; the Catty is called Gin; the Tale, Lyang; the Mace, Tchen; the Candarine, Fwen; and the Cash, Lis.

Gold is purchased in ingots of a determined weight, which the English call Shoes of Gold; the largest weigh ten Tales, and the gold is reckoned 94 Touch, though it may be only 92 or 93.

The Chinese arithmetic is mechanical. To find the aggregate of numbers, a machine is in universal use with all descriptions of people. By this machine, which is called a swanpan, arithmetical operations are rendered palpable. It consists of a frame of wood, about an inch deep, and of various sizes, from 4 to 12 inches long, by 2 to 6 broad, divided into two compartments by a bar down the middle through this bar at right angles are inserted a number of parallel wires, and on each wire; in one compartment are five moveable balls, and in the other, two. These wires may be considered as the ascending and descending power of a numeration table, proceeding in a tenfold proportion, so that if a ball upon any of the wires in the larger compartment be placed against the middle bar, and called unity, or one; a ball on the next wire above it will represent ten; and one on the next, one hundred: so also, a ball on the wire next below that expressing unity, will be one-tenth; the next lower, one hundredth; and the balls on the corresponding wires in the smaller compartment will be five, fifty, five hundred, five-tenths, five hundredths, five thousandths; the value or power of each of these in the smaller division, being always five times as much as those in the larger. This system, from its apparent ease and simplicity, is much admired, but is subject to error; and a person commonly conversant with arithmetic, will make more progress, and be more correct, than the most skilful of the Chinese with the swanpan.

MEASURES — The long measure in use at Canton is called the covid or cobre: it is divided into ten punts, and is equal to 14.625 English inches. There are several measures answering to our foot.

EXAMPLES.

1st. What is the Interest of 50000 Rupees for 6 months and 3 days at 6 per cent. per annum
 $50000 \times 6 \times 6 \text{ months } 3 \text{ days} = 1830000$

<p>Multiply the Principal 50,000 by 6 the rate per cent. gives 300,000; and 300,000 by 6 months and 3 days, you get 1830000 for which collect from the Table.</p> <p>Opposite 1 is 0000833,333</p> <p>Unto 8 is 000666,666</p> <p>Unto 3 is 0 025,000</p>	<p>Or divide 1830000 by 12 the quotient is 152500 and cutting off the two right hand figures the Answer is Rs 1525 as before.</p>
---	---

Answer, Rupees 1525.

2d. To reduce Current Rupees into Sicca Rupees, is best done by the Pen, as the multiplier would be too great to be of any use with the Table.

By the Pen, suppose 10000 Current Rupees to be reduced to Sicca Rupees, Multiply by 23 and divided by 29, - thus 10000×23
 $\text{the answer required} \quad \dots \quad 29 = \text{Rs. } 8620 \text{ } 11 \text{ } 0$

2d. To reduce Sicca Rupees to Current Rupees—Multiply by 116 and cut off the two right hand figures, the product will be the Answer.

Thus $1000 \times 116 = 1160,00$ or 1160 Current Rupees the Answer.

4th. To reduce Factory Weight to Bazar Weight—Multiply by 1000, 1-11 and collect from the Table.—Thus suppose 1000 Factory Maunds were required to be reduced to Bazar Maunds, &c.

$1000 \times 1000, 1-11 = 1090909,$

Or thus by the Pen.

Opposite 1 is	0000833,833
Ditto 9 is	00075,000
Ditto 9 is	000,750
Ditto 9 is	0.007

Divide 10909,09 by 12
the Quotient 909,09 is the
answer as before. Note; two
figures must be always cut
off to the right when dividing by 12

Answer Bazar Weight 909 090

Or Bazar maunds....909 3sr. 10 chattacks

5 h. To reduce Bazar Maunds to Factory Weight—multiply by 1320 and collect from the Table. Thus suppose 1000 Bazar Maunds were required to be reduced to Factory Maunds, &c.

$1000 \text{ Baz. Mds} \times 1320 = 1320000$

Or thus by the Pen, 132000, Divided by 12

Opposite 1 is	0000833,333
Ditto 3 is	000250,000
Ditto 2 is	00016,666

Gives 110000 cut off the two right-hand figures, the answer is 1100 Factory Maunds as before.

Answer Factory Maunds 1100

6th. To reduce Bazar Maunds into Tons multiply by 44 and collect from the Table. Thus suppose 1000 Bazar Maunds were to be reduced to Tons, &c.

$1000 \times 44 = 44000$

Or thus by the Pen, 44000 Divided by 12 gives 3666,666 cut off the two righthand figures and you get 36,666 or 36 Tons 13 cwt. 27½ lb. the answer as before

Opposite 4 is ...	00033,333
Ditto 4 is ...	0003,333

Answer Tons 36 666
Or 36 tons 13 cwt. 37½ lb.

7th. To reduce tons to Bazar Maunds. multiply by 30000, 3-11 and collect from the Table.—Suppose 100 tons.

$100 \times 30000, 3-11 = 3272727,27, \&c.$

Or without the Table to save the addition

Opposite 3 is	0002500,000
Ditto 2 is	000166,666
Ditto 7 is	00058,333
Ditto 2 is	0001,666
Ditto 7 is	000,583
Ditto 2 is	00,016
Ditto 7 is	0,005

Divide 32727,272 by 12
gives 2727,272 or 2727 Bazar
Maunds 10 tr. 15 ch.

Answer Bazar Maunds 2727,272
Or 2727 10 seer 15 chattacks 5

518 COINS, WEIGHTS, MEASURES, EXCHANGE, &c.

8th. To reduce Factory Maunds into Tons, multiply by 40 and collect from the Table. Thus suppose 3000 Factory Maunds.

$$3000 \times 40 = 120000$$

Opposite 1 is	000083.333	Or divide 1200,00 by 12 the answer is 100 tons as before.
Ditto 2 is	00016.666	

Answer Tons 100

9th. To reduce Tons into Factory Maunds, &c. multiply by 36000 and collect from the Table. Thus suppose 100 Tons

$$100 \times 36000 = 3600000$$

Opposite 3 is	0002500	Or without the Table.—Divide by 12 and you have 36000,00 —3000 Factory Maunds. 12 The Answer as before
Ditto 6 is	000500	

Answer Factory Mds. 3000

It may be observed that in most instances the operation by the Pen, will be found much shorter than by any set of Tables whatever. But the object of Tables is not altogether the saving of time; they are intended rather as Checks on Calculations by the Pen, into which errors may sometimes creep. One Table only, has been used here for all the above different operations, in order to save the trouble of references to different Tables, which would take up more time, and the Tables more space. This has been effected by means of easy multipliers adopted for each subject. The Cyphers on the left hand of the figures in the Table are merely intended as guides to preserve at all times, the due number of places of figures to be taken out which must be always equal, including the Cyphers, to the number of places in the given product, with three places more to the right to answer for fractional parts which is fully explained by the examples.
